

CTE Student File (Oregon)

Last Modified on 05/03/2024 8:48 am CDT

[Report Logic](#) | [Report Editor](#) | [Generate the Report](#) | [Report Layout](#)

Tool Search: OR CTE Collection

The CTE Student File reports all students at each CTE site who may or may not participate in a [CTE program](#). It is assumed that ALL students have at least one CTE record.

CTE participants can report a maximum of four Student Leadership Organization memberships, a maximum of four CTE Work-Based Learning records, and a maximum of two CTE Industry Recognized Credential records between July 1 and June 30 of the selected school year.

The [CTE Course File](#) uses the student information submitted from the same year in the CTE Student File to verify each record. Therefore, the CTE Course File cannot be completed until after the submission of the Student File.

OR CTE Collection ☆
Reporting > OR State Reporting > OR CTE Collection

Instructions

CTE Course & CTE Student

The CTE Collection uses the student information submitted in the same year's CTE Student collection to verify each record. This means CTE Course cannot be performed prior to the institution's complete submission to CTE Student.

CTE Student reports at least one row per student grade 9 and up in the entire school regardless whether the student engages with CTE. A maximum of 2 CTE IRC records report per participating student and a maximum of 4 CTE Work-based Learning records report per participating student.

CTE Course reports one row per CTE course attempt per student for the applicable school year regardless of whether the student completed and/or passed the course.

Choose the State Format to generate the file in the state defined file format; otherwise, choose HTML for testing/debugging.

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

This report might look different from some of the other available Oregon reports. Organization-wide initiatives are being made to improve technology and accessibility.

Report Logic

The information collected in the CTE Student collection is required to calculate the information submitted for the Carl D. Perkins Act. It is submitted in a report called the Consolidated Annual Report (CAR).

Data reports from the following records associated with the student:

- Student Leadership Organization memberships are entered on the [Programs](#) tool.
- Work Based Learning is entered on the [Career and Technical Education](#) record.
- Industry Recognized Credentials (IRC) are entered as an [Academic Program](#).

Every student is included in this report, regardless of their participation in CTE programming.

A student reports when:

- They are assigned a Student State Identifier (ID).
- They are actively enrolled in at least one selected calendar during the selected reporting year.
- They are enrolled in a grade level mapped to a state grade level code of 09-12.

A student does NOT report when:

- The Calendar of Enrollment is marked as State Exclude.
- The Enrollment record is marked as State Exclude or No Show.
- The Grade Level of Enrollment is marked as State Exclude.

Report Editor

Data Element	Description
Setup	
Search Calendars	Search field to narrow the list of calendars to select. Use the Expand All/Collapse All. Place a checkbox next to the desired school and calendars.
Show Active Year Only	When set to ON, only those calendars for the current school year are available for selection. When set to OFF, all calendars from all school years are available for selection.
Report Options	
Report Type	Determines which report generates - CTE Course or CTE Student.

Data Element	Description
Start Date	Entered date reflects the start of the reporting range in which data reports. This field defaults to July 01 of the school start year.
End Date	Entered date reflects the end of the reporting range in which data reports. This field defaults to June 30 of the school end year.
Exclude Cross-Site Data	When marked, the report does not include staff information for Cross-Site Enrollment courses. Cross-Site Enrollment is a new tool coming soon. Watch the Cross-Site Enrollment video for more information.
Ad hoc Filter	Select which students to include in the extract by choosing a filter that was created in the Filter Designer. Only those students included in the filter are included in the report.
Output Options	
Report Processing	Select Generate Now to generate the report immediately. Select Submit to Batch to choose when the report generates. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the Batch Queue article for more information.
Format Type	Determines in which format the report generates - CSV, HTML, or XML.

Generate the Report

1. Search for and select the desired **Calendars**.
2. Select **CTE Student** from the **Report Type** field.
3. Enter the correct **Start Date** and **End Date**.
4. Choose an **Ad hoc Filter** to return just the course and staff information included in the selected filter.
5. Select the desired **Report Processing** option of **Generate Now** or **Submit to Batch Queue**.
6. Select the desired **Format Type**.
7. Click **Generate**. The report displays in the selected format.
