Tool Search: OR CTE Collection

The CTE Student File reports all students at each CTE site who may or may not participate in a CTE program. It is assumed that ALL students have at least one CTE record.

CTE participants can report a maximum of four Student Leadership Organization memberships, a maximum of four CTE Work-Based Learning records, and a maximum of two CTE Industry Recognized Credential records between July 1 and June 30 of the selected school year.

> The CTE Course File uses the student information submitted from the same year in the CTE Student File to verify each record. Therefore, the CTE Course File cannot be completed until after the submission of the Student File.

This report might look different from some of the other available Oregon reports. Organization-wide initiatives are being made to improve technology and accessibility.

Report Logic

The information collected in the CTE Student collection is required to calculate the information submitted for the Carl D. Perkins Act. It is submitted in a report called the Consolidated Annual Report (CAR).

Data reports from the following records associated with the student:

- Student Leadership Organization memberships are entered on the Programs tool.
- Work Based Learning is entered on the Career and Technical Education record.
- Industry Recognized Credentials (IRC) are entered as an Academic Program.

Every student is included in this report, regardless of their participation in CTE programming.

A student reports when:

- They are assigned a Student State Identifier (ID).
- They are actively enrolled in at least one selected calendar during the selected reporting year.
- They are enrolled in a grade level mapped to a state grade level code of 09-12.

A student does NOT report when:

- The Calendar of Enrollment is marked as State Exclude.
- The Enrollment record is marked as State Exclude or No Show.
- The Grade Level of Enrollment is marked as State Exclude.

Data Element	Description
Setup	
Search Calendars	Search field to narrow the list of calendars to select. Use the Expand All/Collapse All. Place a checkbox next to the desired school and calendars.
Show Active Year Only	When set to ON, only those calendars for the current school year are available for selection. When set to OFF, all calendars from all school years are available for selection.
Report Options	
Report Type	Determines which report generates - CTE Course or CTE Student.

Data Element	Description
Start Date	Entered date reflects the start of the reporting range in which data reports. This field defaults to July 01 of the school start year.
End Date	Entered date reflects the end of the reporting range in which data reports. This field defaults to June 30 of the school end year.
Exclude Cross-Site Data	When marked, the report does not include staff information for Cross-Site Enrollment courses. Cross-Site Enrollment is a new tool coming soon. Watch the Cross-Site Enrollment video for more information.
Ad hoc Filter	Select which students to include in the extract by choosing a filter that was created in the Filter Designer. Only those students included in the filter are included in the report.
Output Options	
Report Processing	Select Generate Now to generate the report immediately. Select **Submit to Batch** to choose when the report generates. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the Batch Queue article for more information.
Format Type	Determines in which format the report generates - CSV, HTML, or XML.

Generate the Report

1. Search for and select the desired **Calendars**.
2. Select **CTE Student** from the **Report Type** field.
3. Enter the correct **Start Date** and **End Date**.
4. Choose an **Ad hoc Filter** to return just the course and staff information included in the selected filter.
5. Select the desired **Report Processing** option of **Generate Now** or **Submit to Batch Queue**.
6. Select the desired **Format Type**.
7. Click **Generate**. The report displays in the selected format.

Street Address	Reports the student's Primary Household address. The following logic is used when reporting addresses when a student is associated with multiple addresses: • A Street Address is selected over a P.O Box. • A Primary household membership is selected over a secondary household membership. • A Primary location is selected over a secondary location. • The household ID is used as a tiebreaker when multiple addresses have the same/earliest start date. • The location ID is used as a tiebreaker when the start date on multiple household locations is the same. • When a P.O. Box is the only address available for the student, that address reports. *Alphanumeric, 45 characters*	Household > Address > Number, Prefix, Street, Tag Address.number Address.prefix Address.street Address.tag
City	Reports the city in which the student resides. *Alphanumeric, 20 characters*	Household > Address > City Address.city
Zip Code	Reports the five digit zip code of the student's address. *Numeric, 5 digits*	Household > Address > Zip Address.zip
Zip Plus Four Code	Reports the additional four digits of the zip code associated with the student's address. *Numeric, 4 digits*	Household > Address > Zip Address.zip

Data Element	Description	Location
Resident County Code	Reports the county of residence code from the student's primary enrollment record as of the date of generation. When there is no primary enrollment, reports from the partial enrollment, then from the Special Education enrollment. When there are multiple primary enrollments, reports from the most recent entered enrollment. *Numeric, 2 digits*	Enrollment > State Reporting Fields > Resident County Enrollment.residentCounty
Phone Number	Reports the student's 10-digit phone number as entered in the Cell Phone field in the Personal Contact Information. When the Cell Phone field is not populated, reports from the Other Phone field. *Numeric, 10 digits (XXXXXXXXX)*	Demographics > Personal Contact Information > Cell Phone Contact.cellPhone
Teacher Filler	N/A	N/A
High School Entry Cohort School Year	Reports the concatenated school year value based on the student's date of first entry into 9th grade. When the student enters 9th grade in the 22-23 school year, a value of 2223 reports. *Numeric, 4 digits*	Graduation > Date First Entered Grade 9 Graduation.grade9Date
Student Filler	N/A	N/A

Data Element	Description	Location
Economically Disadvantaged Flag	Reports a value of Y when: • The active school history at the time of report generation identifies the school as Provision 2. • The student has an active FRAM record at the time of report generation where the Eligibility is Free or Reduced. Reports a value of N when there is no active FRAM record or when the Eligibility is NOT Free or Reduced. *Alphanumeric, 1 character (Y or N)*	Eligibility > Eligibility Detail > Eligibility POSEligibility.eligibility School > School History > Provision Status SchoolAttribute.provision
Title 1 Flag	Reports a value of Y when the student has an active Title 1 record on the date of report generation. When there is no active Title 1 record on the date of report generation, a value of N reports. *Alphanumeric, 1 character (Y or N)*	Title 1 > Start Date, End Date Title1.startDate Title1.endDate
Special Education Flag	Reports a value of Y when the student has a locked IEP OR has a data plan that is active on the day of report generation AND has a Special Ed Eligibility entry of Yes. Otherwise, reports a value of N. *Alphanumeric, 1 character (Y or N)*	Enrollments > Special Ed Fields > Status Enrollment.specialEdStatus
Section 504 Flag	Reports a value of Y when the student has an active Section 504 record on the date of report generation. Otherwise, reports a value of N. *Alphanumeric, 1 character (Y or N)*	Section 504 > Start Date, End Date Section504.startDate Section504.endDate

Data Element	Description	Location
Migrant Education Flag	Reports a value of Y when the student has an active Migrant record on the date of report generation. Active is defined as the report generation date being on or after the Services Start Date and on or before the Services End Date. Otherwise, reports a value of N. *Alphanumeric, 1 character (Y or N)*	Migrant > Services Start Date, Services End Date Migrant.servicesStartDate Migrant.servicesEndDate
Indian Education Flag	Reports as N for all records.	N/A
English Learner Flag	Reports a value of Y ONLY when the student has an active EL record at the time of generation where the EL Program Status is EL. Active is defined as the report generation date being on or after the Identified Date and on or before the Program Exit Date. Otherwise, reports a value of N. *Alphanumeric, 1 character (Y or N)*	English Learner > Program Status, Identified Date, Program Exit Date lep.programStatus lep.identifiedDate lep.exitDate
Distance Learning Flag	Reports a value of Y when the Distance Learning checkbox is marked on the student's enrollment record. Otherwise, reports a value of N. *Alphanumeric, 1 character (Y or N)*	Enrollments > State Reporting Fields > Distance Learning Enrollment.distanceLearning
Homeschooling Flag	Reports a value of Y when the Home School checkbox is marked on the student's enrollment record. Otherwise, reports a value of N. *Alphanumeric, 1 character (Y or N)*	Enrollments > State Reporting Fields > Home School Enrollment.homeSchooled

Data Element	Description	Location
Transition Program Flag	When the Special Education Flag (field 38) reports a value of Y, logic checks the student's State Reporting Plan to see if it is active during the reporting range. When yes, this field reports as Y. Otherwise, a value of N reports. *Alphanumeric, 1 character (Y or N)*	Enrollments > Special Ed Fields > Status Enrollment.specialEdStatus Special Ed Documents > Data Plan
Alternative Education Program Flag	Reports a value of Y when the student's calendar of enrollment as of the report generation date contains a Calendar Type of Alternative. Otherwise, reports a blank value. *Alphanumeric, 1 character (Y)*	Calendar Information > Calendar Info > Type Calendar.type
Tribal Affiliation Code	Indicates Tribal affiliation with a federally recognized, state-acknowledged, or terminated Tribe for the student, their parent, or their grandparent. • When the student's Race/Ethnicity is marked as American Indian or Alaska Native, reports a value of Y. • When the Detail Ancestry/Tribal Code field contains a value, reports a value of Y. Otherwise, reports a blank value. *Alphanumeric, 1 character (Y)*	Identities > Race/Ethnicity > American Indian or Alaska Native, Detailed Ancestry/Tribal Codes Identity.raceEthnicity Identity.raceSubcategory
Talented and Gifted Flag	Reports a value of Y when the student has an active Gifted record as of the date of report generation. Otherwise, reports a value of N. *Alphanumeric, 1 character (Y or N)*	Gifted > Start Date, End Date gifted.startDate gifted.endDate
