Tool Search: NC PMR Extract

The **PMR Summary Report** is part of a series of extracts that report enrollment, membership, and attendance information for the **Principal's Monthly Report Extract**. It is collected by NCDPI at the end of each school month for nine months and is used as the source data for calculating the following:

- Average Daily Membership
- Average Daily Attendance
- Enrollment
- Membership Last Day
- Violation Status

Students do not report when:

- Their enrollment record is marked as No Show or State Exclude.
- Their grade level of enrollment is marked as State Exclude.
- Their calendar of enrollment is marked as State Exclude.

Only information from enrollments with a Service Type of Primary is included.

See the [NC Principals Monthly Report Extract](#) article for information on required data setup, report logic, tool rights, and more.

Review the Report

Follow the procedures above, selecting the same calendar and School Month. Instead of choosing Generate, choose **Review**. This pulls data from the snapshot previously created; if changes were made to enrollment records or attendance data between the snapshot's first creation and the date the data was reviewed, those changes are not reflected in the review results.

The Generate step creates a snapshot of data as it was on the day it was generated. This Review step uses that snapshot data.

Submit Verification

Additional tool rights are needed for this step. See the [NC Principal's Monthly Report Extract](#) information for details.

Once the data has been generated and reviewed, submit that data to the state. **The same individual who generated the report must also be the same individual to submit this data.**

When submitting the verification, text of the North Carolina General Statute Sections 115C- 276 (p); 115C--288 (b) and 115C-317 displays, requirement acknowledgement and certification of the data contained in the report. Once **Submit** is selected, data is sent to the State, and no further changes can be made.
