

Workflow Roll Forward

Last Modified on 02/06/2026 9:49 am CST

The Scanning toolset is part of the [Campus Workflow Suite](#).

[Rolling Forward Settings](#)

Tool Search: Workflow Roll Forward

The Workflow Roll Forward tool is designed to duplicate setup work done for [Badges](#), [Behavior Matrices](#), and [Scanner Settings](#) from a previous calendar into the calendar in your Context Menu. This will only work within the same school. It won't work between different schools.

You must have calendar rights for the year you are trying to roll forward from. You must also have Read and Write tool rights to all of the tools you wish to roll forward.

This tool works *only* if the selected calendar does not contain configuration settings. If the selected calendar has existing configurations, a message appears stating the settings cannot roll forward. The Roll Forward Status must appear, showing the status of each setting, before closing the tool. If the Roll Forward Status does not appear, the settings are not saved.

Workflow Roll Forward - Roll Forward Settings

Rolling Forward Settings

1. Select a calendar from the **Copy setup from** drop-down.
2. Check each checkbox for settings that will be rolled forward.
3. Click **Roll**. Once clicked, a Roll Forward Status will appear that shows each setting that has been moved to the calendar.
