Title 1 is a federally funded program designed for the academic achievement of disadvantaged students. For a student to participate in Title 1 Services, the school must be marked as a Title 1 school on the [School](#) editor.

See the core [Title 1](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Title 1 records.

A given record can include any number of services marked. However, one Title 1 Service entry, regardless of the number of services marked, is considered a service.

When a service in one entry ends but the rest of the services are still active, end that record and enter a new one. This way, there is always a record that the student received the ended service at some point during the year.

Records can be created by state users in State Edition and by users in District Edition. When a record is created in State Edition, it does not have a District ID associated with it, indicating it is state-owned. When a record created by a district is viewed in State Edition, it does have a District ID associated, indicating it is district-owned.

1. Click the **New** icon. The Title 1 editor displays.
2. Select the **Start Date** and **Title 1 Program**. These are required selections.
3. Enter additional Title 1 information that is applicable to the student.
4. Click the **Save** icon when finished. The record is listed in the Title 1 Services section.

To modify a Title 1 record, select the appropriate record and make the changes. When a student ends programming for a particular service, add an End Date with the date the student stopped services. When a student adds additional services, add a new record.
