Last Modified on 04/02/2026 10:03 am CDT

As of the Campus.2615 Release (April 2026), this Migrant tool is READ ONLY. For the time being, records are available for viewing, printing reports, and uploading documents.

All updates to Migrant records are managed through the [Migrant Eligibility](#) and [Migrant Enrollment](#) tools.

Tool Search: Migrant

The Migrant tool captures information for students whose parents/guardians move frequently to find work or better living conditions. The Federal Migrant Program supports these students in succeeding in their education.

Publish Migrant Records from a State Edition to a District Edition

Tool Search: Federal Programs Publishing

Migrant records can be published from the State Edition to a District Edition using the [Federal Programs Publishing tool](#). This tool is only available to State Edition users.

Federal Programs Publishing

The Federal Programs Publishing tool allows State Edition users the ability to publish records for federal programs to District Editions within the state. Users must have statewide access and publish rights for the federal program in order to publish federal programs. Users need to select the program(s) to publish and select whether to publish all records for the selected program(s) or only records that have changed since the last publish. Once programs have been published, federal program records are created at the district level.
