

# Data Setup Impacting District to State Syncing

Last Modified on 05/07/2024 10:56 am CDT

The following data setup impacts whether or not certain records sync between districts and the state.

- Behavior Events Must Be Mapped to State Event Codes
- Behavior Resolutions Must Be Mapped to State Resolution Codes
- IEPs Must Be Locked
- Course Codes, Courses, Sections, and Roster Setup
- Staff Must Have a District Employment or District Assignment Record
- Students Must Have a Student State ID and an Enrollment Record
- Flags Must Be Marked as State Reported
- Excludes

## Behavior Events Must Be Mapped to State Event Codes

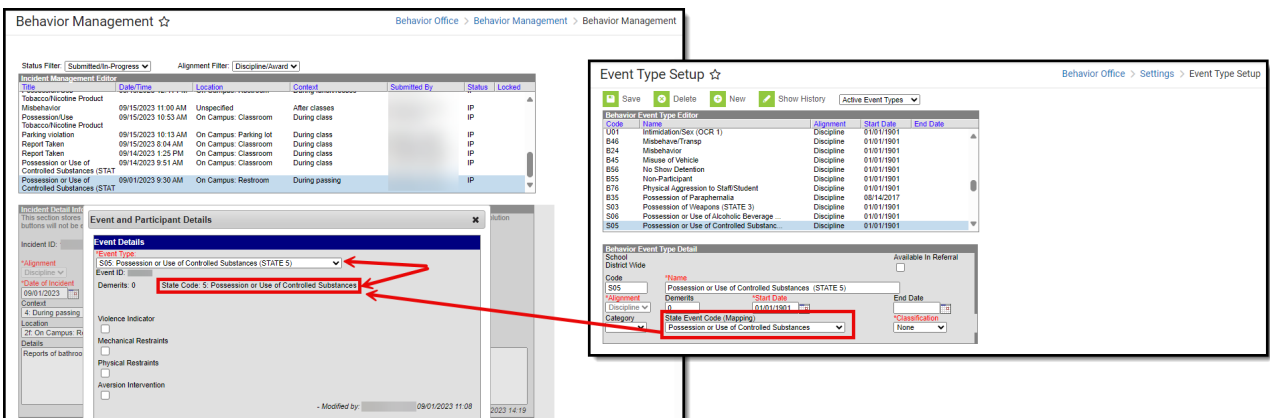

Location: Behavior Office > Settings > Event Type Setup > State Event Code

Location: Behavior Office > Behavior Management > Behavior Management > Add Event/Participant > Event Type

A Behavior Event record will only sync to the State Edition if assigned an Event Type associated with a State Event Code.

You assign State Event Codes to Event Types within the Event Type Setup tool. Once a State Event Code is selected and saved for an Event Type, selecting that Event Type for a Behavior Event will tie the associated State Event Code to the event.

For example, in the image below, the Event Type 'Possession or Use of Controlled Substances' is assigned a State Event Code 'Possession or Use of Controlled Substances'. On the Behavior Event, this event type was selected, and the associated State Code was displayed.

# Behavior Resolutions Must Be Mapped to State Resolution Codes

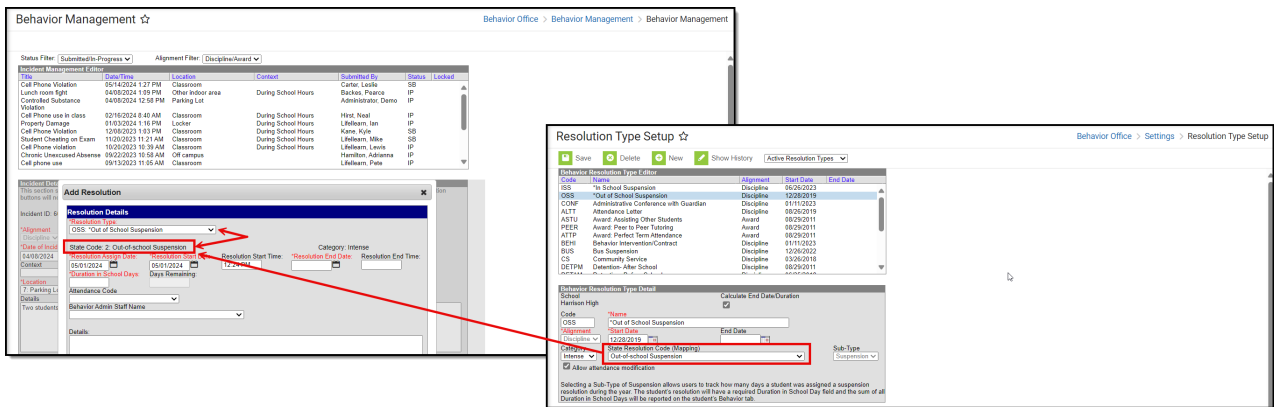

Location: Behavior Office > Settings > Resolution Type Setup > State Resolution Code

Location: Behavior Office > Behavior Management > Behavior Management > Add Resolution > Resolution Type

A **Behavior Resolution** record will only sync to the State Edition if assigned a Resolution Type associated with a State Resolution Code.

You assign State Resolution Codes to Resolution Types within the **Resolution Type Setup** tool. Once a State Resolution Code is selected and saved for a Resolution Type, selecting that Resolution Type for a Behavior Resolution will tie the associated State Resolution Code to the resolution.

For example, in the image below, the Resolution Type 'Out of School Suspension' was assigned a State Resolution Code 'Out-of-school Suspension.' On the Behavior Resolution, this resolution type was selected, and the associated End State Code was displayed.

# IEPs Must Be Locked

Location: Student Information > Special Ed > Special Ed Documents > Lock/Unlock

Only locked IEPs are synced to the State Edition. You can lock an IEP within a student's **Special Ed Documents** by selecting the IEP and clicking the **Lock/Unlock** button. Once an IEP is locked it should not be modified.

Special Ed Documents ☆ Student Information > Special Ed > Special Ed Documents

## Course Codes, Courses, Sections, and Roster Setup

For courses, sections, and rosters to properly sync from districts to the State Edition, course codes must be populated, and courses must be assigned these codes.

**NOTE: For some State Editions, Infinite Campus may have already populated and published course codes. If so, skip creating course codes and move on to assigning course codes to course masters.**

To start, State Edition users must create course codes via the [Course Code Setup](#) tool. For the State to understand a district's set of courses and how they relate to another district's set of courses, Course Codes are created in the State Edition as a standardized list of courses, and districts can associate each course with a course on the course code list.

Course Code Setup ☆ Grading & Standards > Grading & Standards Administration > Course Code Setup

470822	2 Stroke Cycle Eng(Sm Eng)			17-18
703089	4-5 Inter Integrated Health&PE		15-16	
703082	4-5 Intermediate Health		15-16	
703072	4-5 Intermediate PE		15-16	
490322	4-Cycle Engine/Stern Drive			17-18
490323	4-Cycle Engine/Stern Drive Lab			17-18
470815	4-Stroke Cycle Eng Lab(Sm Eng)			14-15
470814	4-Stroke Cycle Eng(Sm Eng)			17-18
340287	6th Gr Integrated Health&PE		15-16	
340136	6th Grade Health Education		15-16	
340226	6th Grade Physical Education		15-16	
340288	7th Gr Integrated Health&PE		15-16	
340137	7th Grade Health Education		15-16	
340227	7th Grade Physical Education		15-16	
340289	8th Gr Integrated Health&PE		15-16	

Once course codes are created in the State Edition and published down to districts, each [course master](#) at the district level requires a State Code. This State Code field is populated with the course code list pushed down from the state.

Section information for courses will only sync to the State Edition if they are associated with courses assigned a State Code.

For example, the image above shows information for the course '42230273 IB HL HIST OF THE AMERICAS 1'. Because this course has a valid State Code selected, the section for this course (in the image below) will sync data to the State Edition.

## Excludes

Any records throughout Infinite Campus marked as 'Exclude' will not send data to the State Edition or any dependent data tied to that object.

For example, if a school is marked as Exclude, the [school](#) and all associated data for that school (grades, calendars, rosters, etc.) will not be sent and synced to the State Edition.

School Information ☆ School & District Settings > Schools > School Information

Save School Delete School New School

School data is divided into two areas: School Detail and School History. School History records contain information related to a school that can be tracked historically. By creating a new School History, the new information is tracked as of a specific date while the previous values are preserved. To create a new School History record, select an existing School History and click the New School History button. This will create a new School History record based on the current information, which can be modified as needed and saved.
