Tool Search: Homeless Services

The Homeless Services tool gives districts the ability to create Homeless Services records that are not tied to a student's enrollment records. Access to this tool can be limited to those who should have rights to see it.

The state of Delaware does not currently collect information specific to the state. Please see the [Homeless Services](#) article for more information on using the Homeless Services tool.

Fields vary by state. Please see your state's [State Tools](#) articles for more information on Homeless procedures in your state.
