

# Special Education State Reporting (Maine)

Last Modified on 11/14/2024 1:36 pm CST

## State Reporting Detail

Tool Search: Special Ed State Reporting

The Special Education State Reporting tool allows users to store and manage student Special Education state reporting data. This tool removes the legal burden of having a Special Education team meeting to amend the setting for age-based changes, such as an early childhood student aging out.

This tool consists of two sections: State Reporting and SPED Flags.

See the core [SPED State Reporting](#) article for information on necessary tool rights and guidance on adding records.

*Special Education State Reporting List Screen*

Districts may add district-defined elements to this tool using the Custom Attribute Dictionary and its related tools. All fields available on the Setting tool can be selected in Ad hoc Reporting for inclusion in queries.

The Start and End Dates of an assigned setting cannot overlap with the start and end dates of another setting. This means only one active setting can exist at any time for a given student. Plan Settings are NOT tied to Student Enrollment, School Calendar Records, or IEPs.

When the student's Setting has changed, select the existing setting from the list and enter an End Date, then click the **Save** button.

Select an existing record or click **New** to view the detail screen.
