The Basics: Quizzes

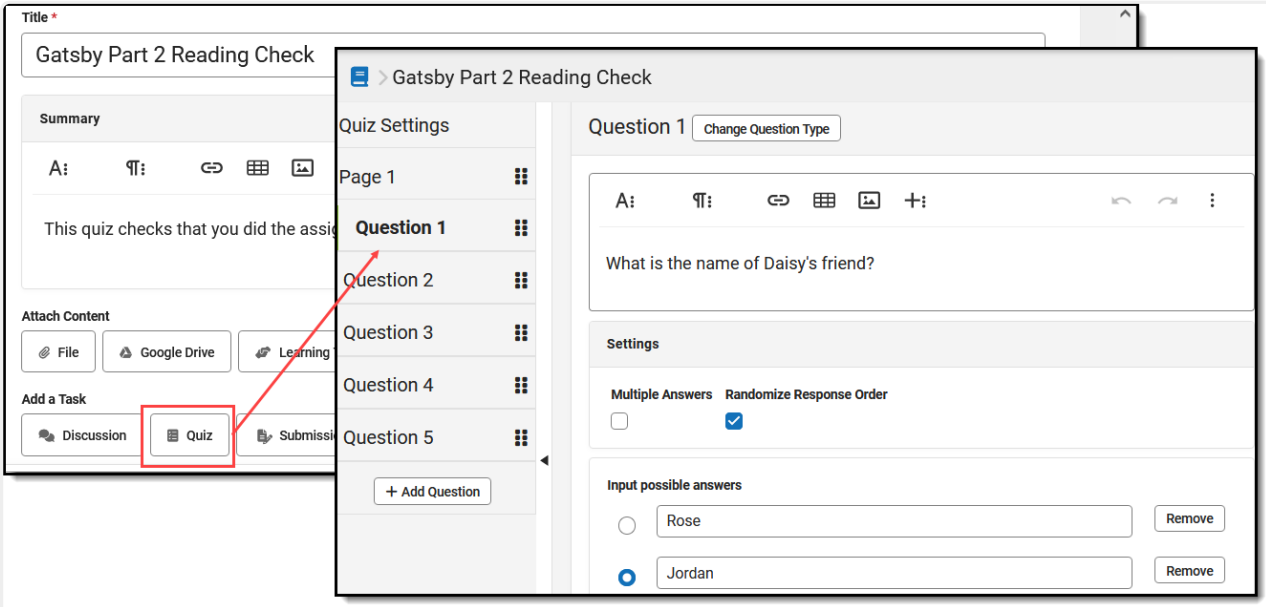

Last Modified on 10/28/2026 2:59 pm CDT

Advanced curriculum tools are available with Campus Learning Suite and require the *Enhanced Curriculum* tool right.

Location: Anywhere you view assignments, such as Grade Book, Planner, or Progress Monitor > click Add split button > Quiz

Quizzes can contain a variety of question types, making them customizable for your class's needs. Students take quizzes through Campus Student. Most question types can be automatically scored.

This article provides a brief walk-through of creating a simple quiz. See the Create Quizzes article or video for a more in-depth information.

Create a Quiz in the Add a Task section.

The **Enhanced Curriculum** tool right in Additional Access Rights > Instruction Tools grants access to this option. See the Instruction Tool Rights article for more information.

Create a Quiz

1. Create an assignment and then click **Quiz** in the Add a Task section.
2. Enter high-level **Instructions** for the quiz, if desired.
3. In **Quiz Settings**, indicate if answers should be displayed to students *Never* or *After*

completing the quiz.

4. Click **Add Question** to add a multiple-choice question and enter question text, settings, and answer options. Click **Change Question Type** to view a list of available question types. Avoid *Essay/Short Answer* questions to completely auto-score the quiz. Click **Done** when finished.
5. Continue adding questions; reorganize quiz questions as desired.
6. Leave the number of **Points** set at 1 to keep all questions worth the same proportion of points possible.
7. Once all questions are created, click **Add to Assignment** to finish creating the quiz and return to the assignment.
8. Set up the Section Settings and Grading for the assignment.
9. Click **Save** when finished. Use the **View as Student** option at the top right of the assignment editor to preview what the quiz looks like for students.

Score Quizzes

When students submit their responses to a quiz via Campus Student, most questions can be scored automatically, with the exception of Essay/Short Answer questions.

Scores display automatically in the Grade Book. Expand the assignment and click **Evaluate Work** to view student responses and enter feedback. If desired, modify scores in the scoring screen or the Grade Book.
