## State Definitions of ALPS

An alternative learning program is defined as a school or program that serves students at any level, serves suspended or expelled students, serves students whose learning styles are better served in an alternative program, or provides individualized programs outside of a standard classroom setting in a caring atmosphere in which students learn the skills necessary to redirect their lives. ALPS are limited to programs that also meet the following criteria:

- Provide the primary instruction for selected at-risk students outside the standard classroom;
- Enroll students for a designated period of time (not drop-in);
- Offer course credit or grade level promotion credit in core academic areas; and/or
- Assist the student in meeting requirements for graduation.

See the [North Carolina Department of Education](#) website for additional information.
