

Create New Eligibility Records

Last Modified on 05/06/2025 2:59 pm CDT

Tool Search: Eligibility

The Eligibility tool shows a student's eligibility for free or reduced-price benefits. The USDA Food and Nutritional Services agency requires districts to track student eligibility for federal reimbursement.

If no eligibility records are shown in the Eligibility Editor, the student has a default Eligibility value of **Paid** and an Eligibility Type of **Meal**.

New eligibility records can be created manually on the Eligibility tool, imported to the Eligibility tool using the [Eligibility Import Wizard](#), or processed through the [FRAM Household Applications](#) and [Online Applications](#) tools.

State Edition users should also refer to the [Eligibility \(State\)](#) article.

Manually Enter a New Student Eligibility

When adding a new eligibility, do not overwrite existing eligibilities. Overlapping **Start/End Dates** are not allowed; therefore, the previous Eligibility automatically adjusts to end before the new Eligibility begins.

Point-of-Sale users only: If a student's eligibility changes, existing transactions for those students will NOT be updated. If transactions exist with an Eligibility that has been edited or overwritten, a district staff member must manually modify those transactions in the student's account [Journal](#).

1. Click **New** in the action bar.
2. Select the **School Year** to which the Eligibility should apply.
3. Enter or select a **Start Date**.
4. The End Date will be set to the Default Expiration Date set in FRAM Preferences, based on Eligibility Carryover. Change if needed.

More about Eligibility Carryover

► [Click here to expand...](#)

Carryover refers to a child's eligibility from the previous school year being carried over into the current or new school year. A child's eligibility from the previous school year (before July 1) carries over for up to 30 operating days into the new school year or until a new eligibility determination is made, whichever comes first. The 30 operating days begins on the first

operating day of school. Operating days are the days on which reimbursable meals or milk are provided by a school or another program sponsor. Carryover applies to eligibility established through a household application or through direct certification. Meals served during the carryover period are claimed at the appropriate rate, depending on the individual child's eligibility status from the previous school year. Carryover allows children to continue receiving school meal benefits while families complete and submit their application for the school to process.

When children from schools participating in a Special Provision (i.e., Provision 1, 2, or 3 or CEP) move to a non-provision school, at the State agency's discretion, you may carry over children's eligibility for free reimbursable meals for up to 30 operating days or until a new eligibility determination is made

5. Select the **Eligibility Type** and **Eligibility**.

Eligibility Editor Field Descriptions

Field	Definition
School Year	The school year for which the Eligibility applies.
Start Date	The first day on which the Eligibility is active.
End Date	<p>The last day on which the Eligibility is active. The eligibility End Date field indicates the last date on which the student is eligible for the eligibility, generally 30 days into the next school year.</p> <p>If a Default Expiration Date is set for the School Year under FRAM > FRAM Preferences > Application Preferences, the date entered in this field will automatically populate when the School Year is selected for manual entries. Users may manually edit the End Date value as necessary.</p> <p>After an existing eligibility expires (i.e., the day after the End Date), the student's eligibility will automatically default to a "Paid" eligibility.</p>

Field	Definition
Eligibility Type	<p>Indicates the type of eligibility. The Eligibility Type determines what department created and will use the Eligibility record within the district.</p> <ul style="list-style-type: none"> ◦ Meal - Indicates the record is a meal status eligibility record. This Eligibility Type is utilized by the Food Service Department and for state reporting data. ◦ SES - Indicates the record is a socioeconomic status eligibility record. This eligibility type is utilized for students participating in Provision programs. This Eligibility Type is utilized by other departments within the district, including state reporting. This type will never message to a Point of Sale terminal. <div> <p>If the district is using Campus FRAM for processing applications and/or Campus Point of Sale it is recommended to keep the default setting of Meal. Eligibilities assigned an Eligibility Type of SES are used by Provision participating schools to track eligibilities for state reporting purposes as well as additional benefits within the district. SES eligibility types do not message to the Point of Sale and are considered a "Paid" eligibility by the Food Service Department.</p> </div>
