Tool Search: ACME Status

The Automated Certificate Management Environment (ACME) Status tool is used by Infinite Campus Support and Development to manage, maintain, and troubleshoot your system's certificate used to connect to centralized services.

This tool is for Infinite Campus Support and does not require user interaction or setup. Users cannot break functionality if interacting with this tool.

ACME Status ☆
[System Settings](#) > [System Preferences](#) > ACME Status

Certificate Information

Main Cert Status Valid	Main Cert Name [redacted].infinitecampus.com	Main Cert Expiration Date 2024-06-04 13:19:36
Intermediate Cert Status Valid	Intermediate Cert Name sis-acme-int-intermediateca	Intermediate Cert Expiration Date 2028-08-08 10:15:19

ACME Server Information

Server URL
https://acme-campusclient-[redacted].infinitecampus.cloud/[redacted]campusclient/directory

Server Status
Active

SIS ACME Configuration

Domain Name [redacted].infinitecampus.com	Listening HTTP Port 8	Root App Available Yes

Key Store Password Valid	Domain Password Valid	Account Password Valid

Download Current Certificate
Request New Certificate
Reset Keystore

Only users assigned a [Product Security Role](#) of **Student Information System (SIS)** can access this tool.

Certificate Information

The Certificate Information section indicates if you have a valid certificate, its name, and when it will expire. The Main certificate is signed, and the Intermediate certificate is used to sign.

Certificate Information		
Main Cert Status Valid	Main Cert Name [redacted].infinitecampus.com	Main Cert Expiration Date 2024-06-04 13:19:36
Intermediate Cert Status Valid	Intermediate Cert Name sis-acme-int-intermediateca	Intermediate Cert Expiration Date 2028-08-08 10:15:19

ACME Server Information

The ACME Server Information section indicates the server that issued the certificate and whether or not the certificate is active.

ACME Server Information
Server URL https://acme-campusclient-[redacted].infinitecampus.cloud/[redacted]campusclient/directory
Server Status Active

SIS ACME Configuration

The SIS ACME Configuration section houses information used to request and store certificates for the site.

SIS ACME Configuration		
Domain Name [redacted].infinitecampus.com	Listening HTTP Port 8	Root App Available Yes
Cert DB Available Yes	Cert DB Location intaz	
Key Store Password Valid	Domain Password Valid	Account Password Valid

Additional Information

The table below explains the purpose for each button in the tool:

Button	Description
<p data-bbox="165 293 437 360">Download Current Certificate</p> 	<p data-bbox="485 293 1321 360">Download your current public certificate (.pem file) to your local machine or network.</p>
<p data-bbox="165 477 363 544">Request New Certificate</p> 	<p data-bbox="485 477 1406 589">Generate a new certificate with a new expiration date and private key. Once selected, you must click Download Current Certificate to access and inspect the newly generated certificate.</p>
<p data-bbox="165 660 392 694">Reset Keystore</p> 	<p data-bbox="485 660 1386 694">Wipes the current keystore and inserts and validates a new keystore.</p>
