List editors display a list of all records within that editor. Clicking an existing record or the **New** button opens the detail view for an individual record.

Editor Lock Out and Release Logic

Only one user at a time can actively work on an editor. A person with a padlock icon () displays in the Editors side panel, Editor Home, and List Screen of list editors indicating which editors currently have users working on them. Hovering over the icon displays the name of the user who has checked out the editor, including the current user (you).

Editors that are currently being edited are read-only for all other users. The name of the person working on the editor displays in the header.

To release an editor, the user must:

- navigate to the next editor by clicking **Save and Next** or the **Editors** button and selecting the next editor from the side panel.
- click the **Cancel** button to return to the Editor Home screen.
- log out of the Campus application.
- navigate to a different tool in the Campus application.

Editors are automatically released when the in-application timeout limit has been exceeded. This is a back-end process and is usually around 30-60 minutes.
