

Custom Tools and Codes

Last Modified on 01/15/2025 9:51 am CST

Information on creating and publishing custom tools and codes for State Edition.

Tool/Article	Description
<u>Core Attribute Dictionary</u>	The Core <u>Attribute</u> /Dictionary tool shows all core fields and code values created for the current Release Pack version and localized for the applicable district or state.
<u>Custom Attribute/Dictionary</u>	The Custom <u>Attribute</u> /Dictionary is used to view and create new custom fields for the user interface.
<u>Custom Tool Setup</u>	Custom Tool Setup allows users to create custom tools for tracking local or state-level information.
<u>Custom Form Setup</u>	The <u>Custom Forms Setup</u> tool uploads and manages supplemental documents that can then be linked to a person's record. Custom Forms can be set up to pull information directly from Campus and/or have data entered into a form queried and reported in Ad hoc.
<u>Publish Custom Tools</u>	Publish Custom Tool allows State Edition users to publish custom tools and links down to DIS-linked districts.
<u>Code Defining</u>	The Code-Defining tool tracks the meaning of a field value so that Infinite Campus can utilize codes from various locations throughout the product to aid in logic used for reports and/or calculations.
<u>Task Scheduler</u>	The Task Scheduler tool allows users to schedule and manage automated system tasks.
<u>Custom Help Articles</u>	The Custom Help Articles tool allows users to create their own help articles, which are available to all users.
