Custom Tools and Codes

Last Modified on 05/31/2024 8:21 am CDT

Information on creating and publishing custom tools and codes for State Editon.

Tool/Article	Description
Core Attribute Dictionary	The Core Attribute/Dictionary tool shows all core fields and code values created for the current Release Pack version and localized for the applicable district or state.
Custom Attribute/Dictionary	The Custom Attribute/Dictionary is used to view and create new custom fields for the user interface.
Custom Tool Setup	Custom Tool Setup allows users to create custom tools for tracking local or state-level information.
Publish Custom Tools	Publish Custom Tool allows State Edition users to publish custom tools and links down to DIS-linked districts.
Code Defining	The Code-Defining tool tracks the meaning of a field value so that Infinite Campus can utilize codes from various locations throughout the product to aid in logic used for reports and/or calculations.
Task Scheduler	The Task Scheduler tool allows users to schedule and manage automated system tasks.
Custom Help Articles	The Custom Help Articles tool allows users to create their own help articles, which are available to all users.
