School and District Settings

Last Modified on 05/30/2024 4:05 pm CDT

School and District Setting tools allow users to set school and district information and also create GPA Calculations and Grade level definitions.

Tool/Article	Description
School Information	The School Information tool allows for the creation of schools and to view school history.
District Information	The District Information tool contains district contact and resource information.
County Setup	This tool is used to list the counties that the school district serves.
GPA Calculations	The information in this article describes each type of GPA calculation
Grade Level Definiitons	The Grade Level Definitions editor displays the Code, Name, Description, NCES Grade, PESC Grade and Sequence mapped to each grade level.
Grade Level Age	The Grade Level Age Setup tool ensures students are being enrolled into the appropriate grade level based on their date of birth and age
