

Georgia Ed-Fi Start-Up Checklist 2024-2025

Last Modified on 08/05/2024 11:11 am CDT

Tool Search: Ed-Fi

This article describes the steps to configure Ed-Fi in Georgia for the 2024-2025 school year.

Configuring Ed-Fi for the 2024-2025 School Year

This section describes the process necessary for configuring Campus to report Ed-Fi data for the next school year.

Step 1. Update to the most recent version of Campus

To have the schema and logic in place, you must update to the most recent version of Campus. **Failure to do this will result in an inability to properly report data for the 2024-2025 school year.**

Step 2. Create a New Ed-Fi Configuration for 2024-2025

The image below shows the proper field entries for the Connection Configuration.

Configuration ☆
Reporting > Ed-Fi > Configuration

Connection Detail (23-24 SYS)

Ed-Fi Connection Type *
State

Connection Name *

School Year *

OAuth URL *

API URL *

Post-Amble *

Timeout in Seconds *

Connection Credentials
Add Multiple Credentials
Turn this feature on if more than 1 Key and Secret is required for this School Year.
 OFF

Client Key *

Client Secret *

Georgia Ed-Fi Configuration Connection Detail Editor

Create a new **Ed-Fi configuration** for the next school year.

1. Click the **New** button. The Connection Detail editor displays.
2. Select the **Connection Type** to **State**.
3. Enter a **Connection Name** to something similar to **24-25 EdFi Configuration**.
4. Select the 2024-25 as the **School Year**. **This requires the 2024-25 School Year to be created.**
5. Enter the following values:

▶ [Click here to expand...](#)

Field	Value / Description
Ed-Fi Connection Type	State
O-Auth URL	https://edfi.doe.k12.de.us/Georgia-api-62
API URL	https://edfi.doe.k12.de.us/Georgia-api-62
Post-Amble	/data/v3/2025
ID Post-Amble	/identity/v2/2025
Timeout in Seconds	This field defaults to 60 seconds and determines (in seconds) the time allowed to pass before the connection between Campus and Ed-Fi is considered timed out and Ed-Fi events are not processed. These Ed-Fi events are then re-processed the next time a Quartz job runs.
Connection Credentials	

Field	Value / Description
<p>Add Multiple Credentials</p>	<p>Turn on this feature if multiple districts use the same instance of Infinite Campus to create multiple connections to the state ODS within the same school year. Users should enter a Credential Name, Client Key, and Client Secret for each credential. For data to be reported correctly, sites with multiple districts must populate the District Number field.</p> <div data-bbox="443 456 1422 658" style="border: 1px solid #add8e6; padding: 10px; margin: 10px 0;"> <p>The District Number should be the Ed-Fi District Number for the school(s) selected. In Georgia, this can be anywhere from 1 to 4 characters long. Users must also select the School(s) that will use each credential.</p> </div> <div data-bbox="440 692 1402 1435" style="border: 2px solid black; padding: 10px; margin: 10px 0;"> <p>Connection Credentials</p> <p>Add Multiple Credentials Turn this feature on if more than 1 Key and Secret is required for this School Year.</p> <p><input checked="" type="checkbox"/> ON</p> <p>New Credentials</p> <p>Credential Name * Test Connection</p> <p>Client Key *</p> <p>Client Secret *</p> <p>District Number Complete only if the District Number for this connection is different than the State District Number or Ed-Fi District Number entered on the District Detail editor.</p> <p>Select Schools *</p> <p><input checked="" type="radio"/> All Schools <input type="radio"/> Select Schools</p> <p style="text-align: center;"><input type="button" value="Add"/></p> </div>
<p>Client Key</p>	<p>The Client Key is provided by the Georgia Department of Education (GADOE).</p>
<p>Client Secret</p>	<p>The Client Secret is provided by the Georgia Department of Education (GADOE).</p>

Field	Value / Description
Test Connection	<p>Click the Test Connection button to ensure configuration values are correct and a connection to Ed-Fi has been made. This test should be done BEFORE selecting the Save option and creating the new connection. Auto mapping will NOT work if the initial connection is not properly configured.</p>

- Click the **Save** button.
- Click the **Test Connection** button to ensure the configuration values are correct and that a connection to Ed-Fi was made. A "Connection is Valid" message displays when the connection is successful.

Step 3. Review the Ed-Fi Setup Checklist to Ensure Items are Complete

Review and/or update data based on the list below to ensure data is set up properly throughout Campus.

Once complete, proceed to **Step 4**.

▶ [Click here to expand...](#)

Task	Campus Location
Enable Ed-Fi functionality via the Enable Ed-Fi system preference .	<p>System Administration > Preferences > System Preferences > Enable Ed-Fi</p> <ul style="list-style-type: none"> • Yes = Ed-Fi functionality is enabled, and Ed-Fi data syncs from Campus to the Ed-Fi system (if properly enabled via Ed-Fi Configuration tools). • Tools Only = You can fill out Ed-Fi fields (such as Ed-Fi ID) within Campus, but this data does NOT sync to the Ed-Fi system until this field is set to Yes. This is especially useful when setting up Ed-Fi IDs for students within a school or district so that data properly syncs between Campus and Ed-Fi before enabling it. • No = Ed-Fi functionality is not enabled for the district, and users cannot access Ed-Fi tools within Campus.
Enter Ed-Fi Configuration values.	Reporting > Ed-Fi > Configuration

Task	Campus Location
<p>Set all Resources to 'Off' and map the Ed-Fi Codes to Campus Codes via the Ed-Fi Resource Preferences.</p> <div data-bbox="177 495 491 965" style="background-color: #f8d7da; padding: 10px; border: 1px solid #f5c6cb;"> <p>All Ed-Fi Resources should remain OFF until the Georgia Department of Education (GADOE) communicates approval to begin the ED-Fi process.</p> </div>	<p>Reporting > Ed-Fi > Configuration > Resource Preferences</p> <div data-bbox="528 304 1423 622" style="background-color: #d1ecf1; padding: 10px; border: 1px solid #bee5eb;"> <p>Infinite Camps auto-maps most codes for the user. However, auto-mapping does not occur when the dictionary is unlocked (the user can create custom codes) or when the mapping depends on dates/terms (like the Sessions resource). Auto mapping only occurs if the user creates a successful connection (see Step 2). If the initial connection creation was not configured correctly, it will not properly auto-map.</p> </div>
<p>Assign Ed-Fi IDs.</p>	<p>Demographics > Person Identifiers</p>
<p>Assign tool rights for Ed-Fi.</p>	<p>User Management > User Account Administration > User Account</p>
<p>Populate the District Ed-Fi Number</p>	<p>School & District Settings > District > District Information > District Detail > State District Number</p> <p>This is typically your State District Number. Please confirm that this is correct for your location.</p>
<p>Populate the School Ed-Fi Number</p>	<p>School & District Settings > School > School Information > School Detail > State School Number</p> <p>This is typically your District Ed-Fi Number + State School Number, where the State School Number is 0-padded up to 4 characters on the left. Please confirm that this is correct for your location.</p> <p>Example: If your District Ed-Fi Number is 12 and your State School Number is 345, your Ed-Fi School ID is likely 120345</p>
<p>Confirm all Relationship Types have an associated State Code.</p>	<p>Census > People Setup > Relationship Type Setup</p>

Task	Campus Location
Confirm that all Attendance Codes that should be reported to the state (Excused and Unexcused Absences) have an associated State Code.	Attendance Office > Settings > Attendance Code Setup
Confirm that all behavior Event Types that should be reported to the state have an associated State Event Code (Mapping).	Behavior Office > Settings > Event Type Setup
Set the Ed-Fi Transcript Term Override for all manually added transcripts.	Student Information > General > Transcripts > New > Ed-Fi Transcript Term Override
Set Calendar Dates on all reportable calendars <ul style="list-style-type: none"> • Instructional Days report when the Instruction checkbox is marked on a date; all other events report from the Day Events droplist dictionary values. 	Scheduling & Courses > Calendar Setup > Day Setup
Add a Level to a Course, if applicable.	Scheduling & Courses > Courses > Section Information
Set Ed-Fi Term Descriptor Override on Course Sections .	Scheduling & Courses > Courses > Section Information
Add a Room to all Course Sections for state-reporting courses.	Scheduling & Courses > Courses > Section Information

Task	Campus Location
Add a Teacher Role on Staff History for teachers who must report to Ed-Fi.	Scheduling & Courses > Courses > Section Staff History
Toggle Resources to 'On' in Ed-Fi Resource Preferences once all data setup is complete. <div data-bbox="177 600 491 797" style="background-color: #f8d7da; padding: 5px; margin-top: 10px;"> <p>All Ed-Fi Resources should remain <u>OFF</u>.</p> </div>	<div data-bbox="528 443 1423 607" style="background-color: #f8d7da; padding: 10px; margin-top: 10px;"> <p>Do not move forward until the Georgia Department of Education (GA DOE) communicates approval for this to begin.</p> </div>

Step 4. Perform a Resync for the 2024-2025 Scope Year

*****DO NOT PROCEED TO STEP 4*****

All Ed-Fi Resources should remain OFF. Do not move forward until the Georgia Department of Education (GADOE) communicates approval for this to begin.

▶ [Click here to expand...](#)

Now that the 2024-2025 school year's Ed-Fi configuration is in place and data has been properly reviewed, the Resync tool can [resync Ed-Fi](#) data.

1. Verify the 2024-25 is selected in the toolbar.
2. Select the 2024-25 Configuration option from the Ed-Fi Configuration dropdown.
3. All schools, Person IDs, Course IDs, and Course Section IDs must be resynced for the next year. To do so, mark the All Schools, All People, All Courses, and All Sections checkboxes.
4. Mark the **Select Dependencies** checkbox to ensure related data is sent properly. Review the [Recommended Resync Order](#) for guidance on when to sync each resource. The options in the [Ed-Fi Resource Preferences](#) tool determine which options are available for selection here.
5. Mark the checkbox next to each data set that should be resynced, enter the appropriate dates, and mark the desired resource(s).

6. **Note:** On the first resync for 2024-2025, it is recommended that you turn on one resource at a time. This enhances performance for massive data resyncs and allows you to deal with specific errors one resource at a time. After the first resync, all resources can be left on.

7. Select the **Start Resync** button.

- If the resync is successful, data will flow properly from Campus to Ed-Fi. The [Ed-Fi Error Log](#) shows any errors that occur.

Resync ☆
Reporting > Ed-Fi > Resync

⚙️
Start Resync

Select an Ed-Fi Configuration and Schools to resync data. If a resync is needed for specific people, enter the Campus Person ID's of the records to resync. When more than one person's records should be resynced, separate the ID's with a line break, comma or space. If running for specific people, non-person-related resources and attendance will not resync. **Warning** For best performance, run one school at a time as running the Resync Tool sends large amounts of data.

1. Select the Start Resync button once data sets have been marked and you are ready to resync.
2. Once Resource Preferences have been selected, a valid configuration is made, Ed-Fi IDs have been assigned, and a resync has been completed, data will flow properly from Campus to Ed-Fi. Any errors that occur can be viewed in the [Ed-Fi Error Log](#).

Beginning of the New School Year

Please see the [Beginning of School Year Process article](#) for a general (not Ed-Fi specific) checklist of activities that should be performed within Infinite Campus at the beginning of a new school year.
