

# Grading Tasks (Report Multi-Language Editor)

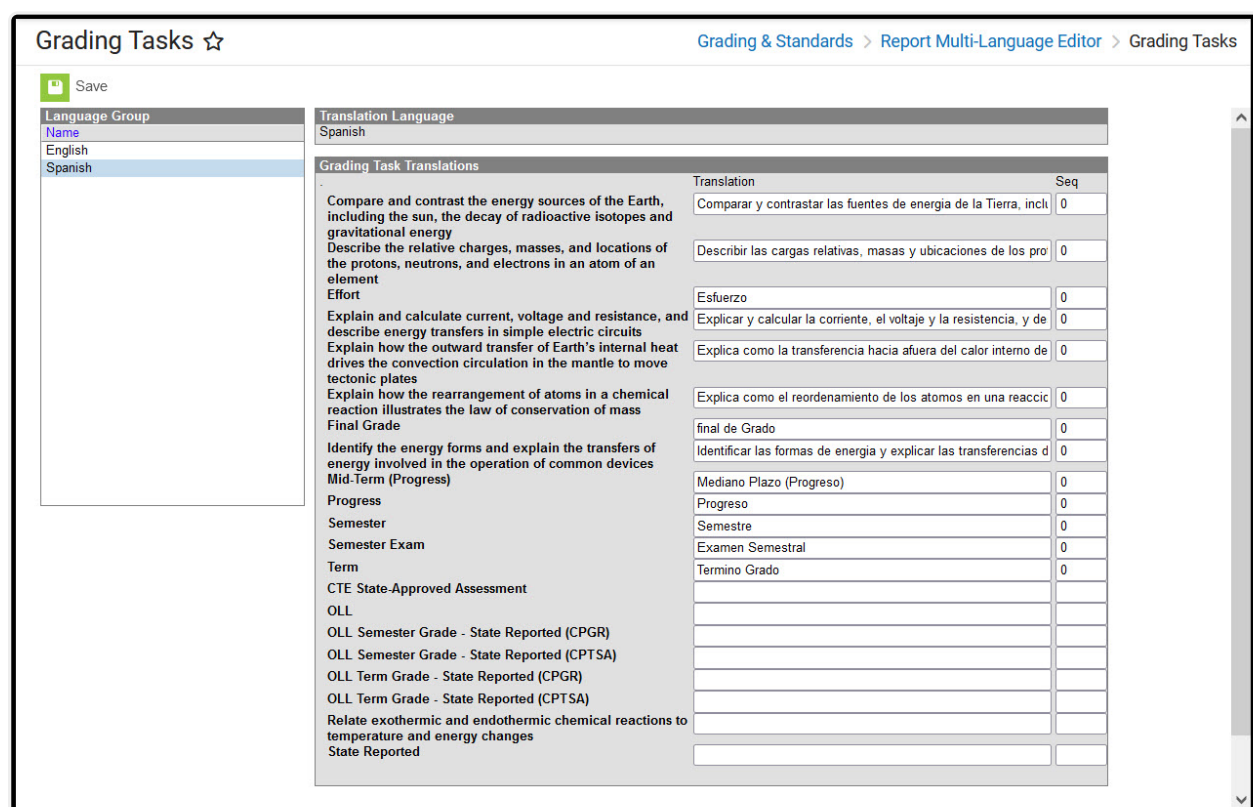

Last Modified on 08/14/2025 2:19 pm CDT

[Enter Translated Grading Task Text](#) | [State-Specific Information Links](#)

This functionality is available to districts that have purchased the Multi-Language Editor as an add-on service. For more information, contact the appropriate Client Relationship Manager.

Tool Search: Grading Tasks Report Multi-Language

The Grading Tasks tool translates grading tasks for custom transcripts and report cards. The options available are based on the active languages created in the [Language Groups](#) tool and the parent/guardian's selected language preference.

The screenshot shows the 'Grading Tasks' tool interface. On the left, there is a 'Language Group' dropdown menu with options for 'English' and 'Spanish'. The main area is titled 'Grading Task Translations' and contains a table with columns for 'Translation' and 'Seq'. The table lists various grading tasks and their corresponding sequence numbers. The tasks include: 'Compare and contrast the energy sources of the Earth, including the sun, the decay of radioactive isotopes and gravitational energy', 'Describe the relative charges, masses, and locations of the protons, neutrons, and electrons in an atom of an element', 'Explain and calculate current, voltage and resistance, and describe energy transfers in simple electric circuits', 'Explain how the outward transfer of Earth's internal heat drives the convection circulation in the mantle to move tectonic plates', 'Explain how the rearrangement of atoms in a chemical reaction illustrates the law of conservation of mass', 'Identify the energy forms and explain the transfers of energy involved in the operation of common devices', 'Progress', 'Semester', 'Semester Exam', 'Term', 'CTE State-Approved Assessment', 'OLL', 'OLL Semester Grade - State Reported (CPGR)', 'OLL Semester Grade - State Reported (CPTSA)', 'OLL Term Grade - State Reported (CPGR)', 'OLL Term Grade - State Reported (CPTSA)', and 'Relate exothermic and endothermic chemical reactions to temperature and energy changes'. The sequence numbers are listed in the 'Seq' column.

Grading Tasks - Report Multi-Language Editor tool

## Enter Translated Grading Task Text

1. Select a language from the Language Group editor.
2. Enter the **Translation** text and the **Sequence** number to order the grading task options. The Enhanced Transcript and Translated Core Report Card do not use this custom Sequence.
3. Click **Save** when finished.
