Census tracks every person entry in Infinite Campus - parents/guardians, staff, students, emergency contacts, doctors, etc. Demographic data is used throughout Campus, utilizing historical and current details of each person. Some fields in the Census module are unique to each state. Other fields in the Census module do not require unique, state-specific data. However, many of these fields are required, and data entry is necessary.

The following information is specific to North Carolina.

## Identities

[Name Fields](#) | [Sex](#) | [Birth Date](#) | [Race Ethnicity](#) | [Birth Country](#) | [Date Entered US](#) | [Immigrant Record](#) | [Date Entered US School](#) | [Multiple Birth](#) | [Verified Home Primary Language](#) | [Home Primary Language](#)

Tool Search: Identities

The Identities tool acts as a historical record of the person's demographic information. While the information on the [Demographics](#) tool is displayed on the Identities record, changes should be made here.

Types of changes include:

- Name and Legal Name
- Sex
- Social Security number
- Race/Ethnicity
- Nickname

Previous identity information is not lost when it is modified, but an end date is entered for the previous identity, and a start date is entered for the new identity.

See the core [Identities](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Identities records.

## Race Ethnicity

The Federal government has adopted standards for defining racial and ethnic data to be used by the Department of Education. See the [Race/Ethnicity](#) article for more information.

### Is the individual Hispanic or Latino?

Indicates whether the student is of Hispanic descent.

The State Race/Ethnicity field auto-populates based on the selections made for this field, as follows:

- When "Is the individual Hispanic/Latino" is set to NO and one race is selected, the Race/Ethnicity must be set to the same value as selected in Race.
- When "Is the individual Hispanic/Latino" is set to NO and more than one Race is selected, the Race/Ethnicity must be set to "Two or More Races."
- When "Is the individual Hispanic/Latino" is set to YES and one Race is selected, Race/Ethnicity must be set to "Hispanic or Latino Ethnicity."

## Demographics

[Person Identifiers](#) | [Personal Contact Information](#)

The Demographics tool is the basic area for viewing general person information within Campus. All people for whom data is tracked, including students, staff, parents/guardians, household members, etc., have a Demographics record, which includes name and other identifying information from the Identities record, student and staff identification numbers, and contact information.

See the core [Demographics](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Demographics records.

## Person Identifiers

Person Identifiers, like Student Number and Student State ID, are used in state reports to identify student records. Staff identification, such as Local Staff ID and State Staff ID, are also recorded here.

Follow district guidelines when creating or importing these values.

See the [Assign NC DPI IDs](#) article for guidance on adding missing or new state ID numbers.

## FTE of Assignment

Indicates what portion of the employee's FTE percent this particular district assignment represents. The field accepts both decimal and whole numbers (e.g., .5 or 50 to represent a half-time assignment).

▶ [Click here to expand...](#)

It is important that the same numbering system is used for all employees for consistency and accuracy of reporting (e.g., FTE of Assignment in decimal format for all employees).

This is different than the FTE Percentage assigned on the District Employment record. At the District Assignment level, it indicates the full-time employment of that particular assignment. For a staff person who is also a coach, the assignment for the teaching assignment might be 75, and a second assignment for the coach assignment might be 25.

Another example is a person who is employed at 50% FTE at the district would have the FTE Percent on the District Employment record entered as 50, then the District Assignment record would be a 1 or 100 to indicate of that half time employment, they are full time assigned to the Health office.

## District Assignment Checkboxes

The marked checkboxes on the Employment Assignment record provide additional information and access to other tools in Campus. See the [District Assignments Checkboxes](#) article for more information.

## Primary District Assignment

For staff who work at multiple locations, this checkbox is marked on the District Assignment that is considered their primary assignment.

Only one assignment can be marked as the Primary Assignment. When one assignment is already marked as primary and a user marks the checkbox on another assignment, a warning message displays, indicating the other assignment will be updated to not be the primary assignment.

## Credentials

Credential Type | License Number

Tool Search: Credentials

The Credentials tool lists the credential types of a staff member. Credentials are based on the date when the credential was earned. There are five types of credentials that can be added for a person. Multiple credentials can be entered for a staff member. The staff member may be highly qualified in two subject areas or may have multiple degrees.

See the core [Credentials](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Credentials records.

The screenshot shows the 'Credentials' page for Staff member Emily E. (DOB: 08/05/1994). The page includes navigation links for 'Census > Staff > Credentials' and buttons for 'Save', 'Delete', 'New Credential', and 'Documents'. The main content area is divided into two sections:

- Employment Credentials:** Lists two credentials for '#070280000 Unified School District':

## Households

[Members](#) | [Addresses](#)

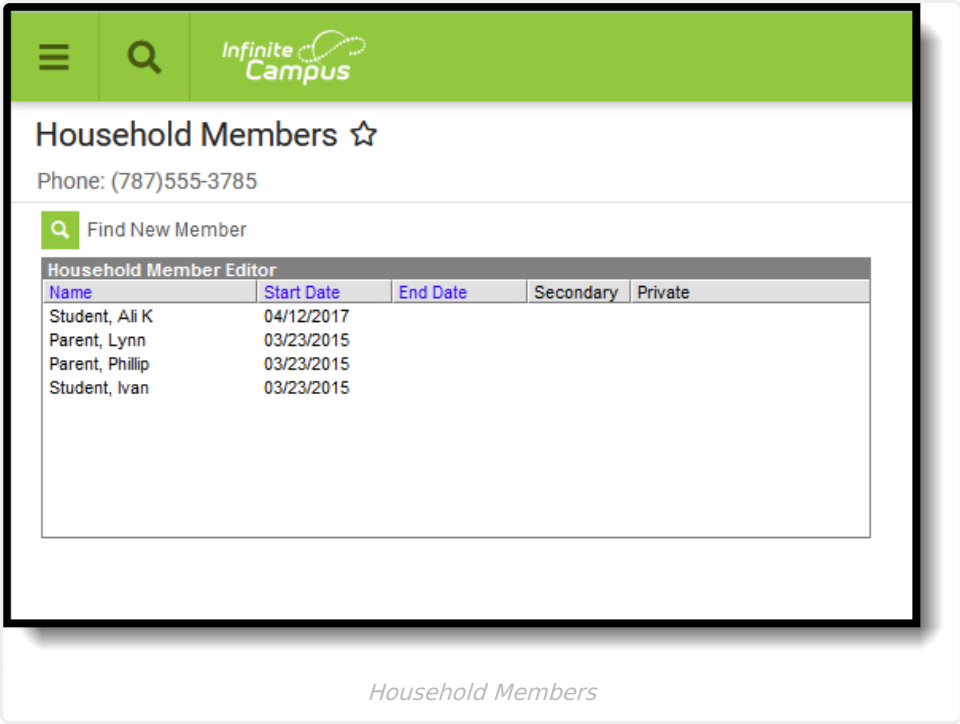

Tool Search: Households

Households help in identifying which persons live in the same home. The list of Members identifies family and non-family members at a shared address, and the Address information lists where that household is located.

See the core [Households](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing household records.

# Members

The **Members** tool lists all persons that have ever lived in the selected household. Due to legacy issues, it is recommended that members are not deleted from the household, but rather ended. This is used to determine whether a student current lives with their parents/guardians.

▶ [Click here to expand...](#)

**Database Location:**

# Addresses

The **Addresses** tool within the Household displays all addresses in which the family has resided. For legacy purposes, addresses should not be deleted, only ended, when a family moves. Like the household information to which it is tied, the addresses are used in generating reports that are sent home and in location extracts.

# Relationships

[Emergency Priority](#) | [Guardian](#) | [Relationship](#)

Tool Search: Relationships

The Relationships tool displays established relationships between people existing in Campus. Relationships include the other individuals residing in the same household as the selected individual and those individuals who may reside in other households but have an association with the selected person (emergency contacts or divorced parents/guardians, etc.).

See the core [Relationships](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Demographics records.

*Relationships*

## Emergency Priority

Provides a visual indication of the listed person's priority for contact in an emergency situation. This is a numeric value. The person that should be notified first should have a 1. When there is no entered priority, the school uses discretion when contacting individuals.
