Tool Search: Transportation

The Transportation tool allows districts to show a student's transportation information for the day, record the bus routes students are assigned to and from school, create transportation requests, and record information for vehicles students drive to and from school. Additional Route Types can be added via the [Core Attribute/Dictionary](#) and additional custom fields can be added to Routes, Requests, and Parking via the [Custom Attribute/Dictionary](#).

Additional Transportation tools are available in [School & District Settings Transportation](#).

## Routes

The Routes section includes three areas:

- Active - Routes that are scheduled within the current day.
- Future - Routes that are scheduled with a future start date and are not currently active.
- Inactive - Routes have an End Date in the past.

Each of these areas can be expanded by clicking its respective header.
