Tool Search: Transportation

The Transportation tool allows districts to show a student's transportation information for the day, record the bus routes students are assigned to and from school, create transportation requests, and record information for vehicles students drive to and from school. Additional Route Types can be added via the <u>Core Attribute/Dictionary</u> and additional custom fields can be added to Routes, Requests, and Parking via the <u>Custom Attribute/Dictionary</u>.

Additional Transportation tools are available in <u>School & District Settings Transportation</u>.

- **Buses** stores all of the district's bus numbers.
- <u>Batch End and Delete Wizard</u> allows districts/schools the ability to end and/or delete existing transportation records for multiple students at a time.
- <u>Student Bus Assignment Report</u> prints bus information for students in a list or in a badge form, generated by bus number or by teacher.
- **Transportation Summary Report** lists current transportation records that includes either bus information or parking detail information.

See the <u>Transportation Tool Rights</u> article for information on the available tool rights for Student Transportation.

# **Today's Busing**

The Today's Busing section details information related to the bus a student will be traveling on today. This includes Route Type, Bus Number, Pick-up Time, and Drop-off Time. If no route information has been added, this section will appear blank.

## Routes

The Routes section includes three areas:

- Active Routes that are scheduled within the current day.
- Future Routes that are scheduled with a future start date and are not currently active.
- Inactive Routes have an End Date in the past.

Each of these areas can be expanded by clicking its respective header.
