Evaluations are used to document the student's educational needs and determine eligibility for special education. This document describes each editor, a description of each field on the editor, and any special considerations and instructions for using the editor and fields.

An evaluation must be created whether or not the student is determined to have a disability. The school district gives a copy of the evaluation summary report, including the eligibility documentation, to the student's parents. For information on general functionality, navigation, and additional plan and evaluation features, see the core Plan and Evaluation Information article.

> The current print format is **ID ESR SLD 2025.** Print formats are managed using the Special Ed Eval Type Setup tool.
