Report Logic

One record reports for all students enrolled in the selected calendar at any point during the school year. When the student has multiple enrollments, only primary enrollments are included when the

student ALSO has a secondary enrollment. When the student two or more primary enrollments, the primary enrollment with the most recent start date reports. When the start dates are the same for the primary enrollments, the enrollment with the highest enrollment ID is used.

Students are not included when:

- The enrollment record is marked as No Show or as State Exclude.
- The grade level of enrollment is marked as State Exclude.
- The calendar of enrollment is marked as State Exclude.

Parent/Guardian and Address information reports as follows:

- The Primary and current household is determined first.
- The current address reports from the primary and current household.
- The individual marked as Guardian in that primary and current household who has the lowest personID reports as the guardian on the report.

Current is defined as the record (household, address, etc.) that is active as of today OR the last date of the submission window, whichever occurs first.

The Primary Parent/Guardian First Name, Primary Parent/Guardian Last Name, and Primary Parent/Guardian Telephone Number fields report even when a student's household does NOT have an address.

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the <u>Identities</u> tool and/or the <u>Demographics</u> tool.

Data Pipeline Extracts and other required extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of N: Non-Binary, on the Identities tool:

- 1. Assign the **Gender of N: Non-Binary** in the standard identify fields.
- 2. Assign the **Protected Identity Information Legal Gender** field to M: Male, F: Female or N: Non-Binary.
- 3. Save the record when finished.
