Last Modified on 12/14/2025 8:45 pm CST

## Scope Year

## Business Rules

When a new IEP is created, the record reports in the Scope Year that the IEP Start Date overlaps with.

- The start date must be on or before the School Year End Date. When School Year End Date is NULL, 6/30/XXXX is used as the default date.
- Data only sends for the years that have valid configuration.

When the record is triggered from enrollments, the record sends to the scope year for the school year the enrollment is associated with.

- Data only sends for the years that have valid configuration.
