

NC Principal's Monthly Report Extract

Last Modified on 04/09/2026 9:47 am CDT

Tool Search: NC PMR Extract

The **PMR (Principal's Monthly Report) Extract** contains enrollment, membership, and attendance information. It is collected by NCDPI at the end of each school month for nine months and is used as the source data for calculating the following:

- Average Daily Membership
- Average Daily Attendance
- Enrollment
- Membership Last Day
- Violation Status

This article provides information on properly entering data into Campus to generate the PMR from Campus. It does not provide details on policies and procedures for schools and districts; for that information, consult the following sites:

- [NCSIS Knowledge Base](#)
- [North Carolina Department of Public Instruction](#)

Additional tool rights are needed for this report. See the [Tool Rights](#) section below for details.

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

In Campus, *PMR Intervals* are called *School Months*.

Getting Started with the PMR

[Data Setup](#) | [Tool Rights](#)

Data Setup

Before generating the PMR, verify that the following tools and values are entered. For additional information, review the [PMR Validation Review](#).

Tool and Required Data	Information
<p>School Information</p> <p>The State School Number is entered and meets the following requirements:</p> <ul style="list-style-type: none"> • Six digits in length, where the first three characters are the State District Number and the last three digits are a unique school identifier. • The last three digits must be higher than 300 - 090365, 090385, etc., - or the third character is a letter - 99B378, etc. 	 <p style="text-align: center;"><i>School Information - State School Number</i></p>
<p>Calendar Information</p>	

Tool and Required Data

The following fields are populated on the Calendar Information editor:

- **Student Day (instructional minutes)**
- **Teacher Day (minutes)**
- **Whole Day Absence (minutes)**

Information

Student Day, Teacher Day, Whole Day Absence - Calendar Information

When the school operates using Tracks, the **Track** field on the Calendar must be set for each track.

This can be left blank for schools that do not operate using tracks.

Calendar Track Field

Grade levels are configured for the selected calendar AND aligned to the correct **State Grade Level Code** in [Grade Level Setup](#).

State Grade Level Code Assigned to Grade Levels

[Calendar terms](#) are set up with a **Term Schedule Name** (Trimesters, Quarters, etc.). Individual terms are named, have a Sequence, a Start Date, and an End Date

Term	Sequence	Start Date	End Date
Q1	1	08/28/2023	10/16/2023
Q2	2	10/17/2023	01/01/2024
Q3	3	01/02/2024	03/15/2024
Q4	4	03/16/2024	07/28/2024

Term Setup

Tool and Required Data

Period Schedules exist when needed (rotating schedules, block scheduling, etc.), and Periods are entered with the correct sequences and names for each **period** in the school day.

Information

Period Setup

Calendar Days have been set using the Day Reset tool, and each day in the calendar is marked correctly for **Day Events**, **School Days**, **Instruction Days**, and **Attendance Days**.

Day Setup

Tool and Required Data

School Months are entered according to [state requirements](#):

- There are a **total of nine School Months** in a calendar.
- School Month 1 and School Month 2 are 20 school days in length.
- The remaining School Months can have a total of school days from 16 to 26.

For School Months 1 and 2, students **CANNOT** be counted for more than 20 instructional days.

For the other school months, students cannot exceed the number of instructional days included in that school month.

Generating the PMR Reports **BEFORE** the end of the School Month causes incorrect calculations.

Information

Name	Days	Start Date	End Date	Exclude Start	Exclude End	Close Date
WBH1	1	08/28/2023	20	09/22/2023		
WBH2	2	09/25/2023	20	10/20/2023

WBH7	7	02/22/2024	22	03/22/2024		
WBH8	8	03/25/2024	22	04/23/2024		
WBH9	9	04/24/2024	25	05/28/2024		

School Months

Students

Students have a **primary** Enrollment record in a school in the active school year AND:

- Have a **Local Start Status** that is mapped to a **State Start Status**.
- Have an Admission Status of **MST1: Member - Standard Day Program** or **MED1: Member - Extended Day Program**.
- For transfer students, the **Year-Round Transfer Days Override** is populated. When a student transfers from one school to another, that results in an overage of Membership. The receiving school needs to indicate how many days the student's membership is reduced for the days that were accounted for by the previous school.

Tool Rights

Access to the **NC PMR Extract** requires the following tool rights. This tool right can be assigned to a user group, if desired.

- **Read** rights provide access to view the report editor.
- **Write** rights allow the report to be generated.

The **NC PMR Extract Submission** tool rights must be manually assigned to a designated user and not through a user group. The user assigned this subright must exist at the State Edition level and have a Staff NC DPI ID.

- Read rights provide access to view the report editor.

- Write rights allow the report to be generated.

ONLY A LIMITED NUMBER OF STAFF SHOULD BE ASSIGNED TOOL RIGHTS TO THE PMR EXTRACT PERMISSION SUB-RIGHT.

Because this report requires the same individual who submits the data to verify the data, only 1-2 people in a school should be assigned both the NC PMR Extract and the NC PMR Extract Permission tool rights.

NC PMR Extract Tool Rights

PMR Workflow

The [PMR Summary](#) and [PMR Detail](#) Extracts can be generated in Preview mode and Review mode prior to submitting them.

Preview and Review modes are only available for PMR Summary and PMR Detail. Other PMR Extract (PMR Best 1 of 2, GRS Summary, etc.) types DO NOT include these modes.

School Month End Dates

These modes are "triggered" by the School Month Sequence field selected in the Report Editor.

- The Preview mode occurs ON or BEFORE the End Date of the School Month selected in the Report Editor.
- The Review mode occurs AFTER the End Date of the School Month PLUS **five** Instruction Days.
- The Submit option occurs on the **sixth** Instruction Day AFTER the last day of the selected school month.

School Month

Save Print

For detailed information on entering data in these fields, refer to the [Knowledge Base](#).

Day Events

An instructional day has the School Day, Instruction, and Attendance checkboxes marked

The images below explain how the modes are triggered for the PMR Summary for School Month 5 (12/10/2025 to 01/21/2026):

- PREVIEW Mode is triggered AFTER the school month has started on 12/10/2025, BEFORE the end date of 01/21/2026, or ON the end date of 01/21/2026.
- REVIEW Mode is triggered AFTER 01/21/2026 until the sixth Instruction Day of 02/03/2026.
- The SUBMIT Option is triggered on 02/03/2026.

The screenshot shows the 'Day Setup' interface with two calendar grids. The top grid is for January 2026, with days 01 through 31. A red box highlights January 31 with the text 'Last day of the school month'. A green box highlights days 1 through 5 with the text 'Five "instructional days"'. The bottom grid is for February 2026, with days 01 through 28. A blue box highlights February 01 with the text 'First day the PSU can "Submit" the PMR Month 5 in this scenario'.

Review Mode occurs five days after the end of the school month

Preview Mode

The screenshot shows the 'NC PMR Extract' configuration screen. A banner at the top reads: 'Preview Mode: Submissions are disabled until 10 days after the selected school month's end date. Once that date arrives, please Generate and Review your data again before submitting your verification'. The 'Report Options' section shows 'Extract Type' set to 'PMR Summary' and 'School Month Sequence' set to '3'. A 'Preview Only' pop-up message is displayed over the form, stating: 'The reporting window for selected school is after 11/04/2025. This report will be generated in Preview Mode until the submission window opens.' The 'Output Options' section shows 'Report Processing' set to 'Submit to Batch Queue' and 'Format Type' set to 'HTML'.

Preview Mode

In Preview Mode, validations run but do not prevent data from being viewed, even when fatal errors have not been addressed. Only the Generate and Review buttons display; Submit is not an option.

1. Select the desired **School** and **Calendar**.
2. Select the **PMR Summary** from the **Extract Type** field.
3. Select a **School Month** that has not yet ended from the **School Month Sequence** field. A banner and pop-up message display indicating the report will generate in Preview Mode.
4. Click **Close** to acknowledge the message.
5. Select the remaining output options for the report.
6. Click **Generate**. The report is queued in the Batch Queue list. When complete, view the report.

Once the Preview Mode ends, a new PMR for the extract type and school month needs to be generated. Submitting preview data is not allowed.

Review Mode

Review Mode

In Review mode, validations run, preventing data from being viewed until all FATALs have been resolved. Only the Generate and Review buttons display; Submit is not an option.

Review mode is available from the day AFTER the end of the School Month until the sixth Instruction Day. This applies to all School Months except Month 9. School Month 9 Review mode is available from the day after the end of School Month 9, plus five calendar days, since there are no Instruction Days following the end of School Month 9.

1. Select the desired **School** and **Calendar**.
2. Select the **PMR Summary** from the **Extract Type** field.
3. Select a **School Month** from the **School Month Sequence** field that has ended and is before the sixth Instruction Day. A banner and message display indicating the report will generate in Review Mode.
4. Click **Close** to acknowledge the message.
5. Select the remaining output options for the report.
6. Click **Generate**. The report is queued in the Batch Queue list. When complete, view the report.

Once the Review Mode ends, a new PMR for the extract type and school month needs to be

generated. Submitting review data is not allowed.

Submit PMR Summary

On the sixth Instruction Day after the end of the school month, the standard workflow for generating an updated snapshot, reviewing the data, and submitting the report begins.

Follow this workflow for generating the PMR Extract six days AFTER the end of a School Month.

1. Generate PMR Summary by using the **Submit to Batch Queue** option.
2. If there are FATAL Validations, generate the PMR Validations FATAL in the Data Validation Reports.
3. If data has changed, regenerate the PMR Summary.
4. Review the PMR Summary.
5. Submit the Verification of the PMR Summary. **Additional tool rights are needed for this step. See the [NC Principal's Monthly Report Extract](#) information for details. The same individual who generated the report must also submit this data.**

When submitting the verification, a pop-up modal displays, noting North Carolina General Statute Sections 115C-276 (p), 115C-288 (b), and 115C-317, which require acknowledgement and certification of the data contained in the report. Once **Submit** is selected, data is sent to the State, and no further changes can be made.

If you need to unsubmit the PMR for any reason, you can submit a request using the [Snapshot Deletion Tool](#).

PMR Extract Types

[PMR Summary](#) | [Data Validation Reports](#) | [PMR Detail](#) | [Students Not Included in the Summary](#) | [GRS Summary](#) | [GRS Detail](#) | [PMR Best 1 of 2](#)

PMR Summary

Article: [PMR Summary Report](#)

The Summary Extract Type is the originating data pull submitted to the state. It can be generated anytime but must be submitted within ten days after data validations and PMR Review have occurred. Other extract types use that snapshot for calculations.

The effective date for determining violation status is based on the report generation date, up to ten days after the School Month end date. Once the ten days have occurred, the report uses the end date plus 10 as the effective date.

1. **Generate** the report for a particular school month. This creates a snapshot of data as of the date it is generated. Once the snapshot is created, the state validations are queried to ensure

no fatal errors exist. When there is a fatal error, an error message displays asking to review the validations, make corrections, and generate the report again.

PMR Summary - Generate

2. Make necessary corrections to data.
3. **Generate** the PMR Summary again with the same information as selected previously.
4. **Review** the report for the same school month that was initially generated. This pulls data from the snapshot previously created; if changes were made to enrollment records or attendance data between the time the snapshot was first created and the date the data was reviewed, those changes are not reflected in the review results. To see those results, generate the report again.
 - Before displaying the results, the list of state validation errors is reviewed to verify no fatal errors. When there are no errors, the report displays; when there are errors, a warning message displays, directing the user to review the validations and generate the PMR again.
 - When Review has been selected BEFORE the validations have completed, a warning message displays indicating the validation report is still running and to wait for that to complete before reviewing the data.

PMR Summary - Review

5. **Submit the Verification.** This step sends the snapshot results to the state, and no further changes to data can be made. The individual at the school who generates the PMR must also submit the verification. Once data has been submitted, that school month selection cannot be generated or re-submitted. Users may continue to review the data from the month of submission, but updates to student data will not be reflected in the report.

PMR Summary Verification

Data Validation Reports

Article: [Data Validation Reports](#)

When the PMR is submitted to the batch queue, the data snapshot is taken, and data validation reports are run in the background. If fatal errors are found, a message indicates that they must be

addressed prior to regenerating the report.

The Instructions section on the report editor includes a link to the Validation Reports.

The following validation reports are owned and managed by NC DPI.

- PMR Fatals
- PMR Warnings
- PMR Information

Refer to the [NCSIS Knowledge Base](#) for information on PMR Validation Review.

See the [PMR Data Validations](#) article for descriptions of the rules.

PMR Detail

Article: [PMR Detail](#)

The Detail Extract Type includes the same fields as the PMR Summary, broken down by student and demographic data. Once the PMR Summary is generated, the PMR Detail can be reviewed.

Changes made to student data are not reflected in the report until a new summary is generated. When the summary has already been submitted, the report does not update, as a new Summary snapshot cannot be taken to update the snapshot data.

PMR Best 1 of 2

Article: [PMR Best 1 of 2](#)

The **PMR (Principal's Monthly Report) Best 1 of 2** report compares ADM calculations submitted in School Month 2 with ADM calculations for School Month 1R. The 1R Snapshot is taken at the same time as School Month 2 for School Month 1 but uses the effective date from School Month 2 for determining violation status. The higher ADM for each grade level is then totaled by grade level across the PSU.

The snapshot being compared is taken at the same time as the PMR summary, and only students who report on the PMR summary are used in the counts.

PMR Best 1 of 2

Report Logic

The PMR reports aggregated enrollment numbers for the calendars selected for each school month in the Report Editor. This is a school-wide report; all calendars must be selected when generating and submitting data.

Only information from enrollments with a Service Type of Primary is included.

Enrollment records DO NOT REPORT when the following is true:

- The Enrollment Admission Status is:
 - **VED1: Visitor - Extended Day Program**
 - **VST1: Visitor - Standard Day Program/Foreign Exchange Student**
 - **VST2: Visitor - Temporary Status**
- The Enrollment Record, Grade Level or Calendar is marked as **State Exclude** or **No Show**.
- The previous Enrollment End Status (State End Status) is **W1: Transfer Withdrawal** or **W2: Early Leaver Withdrawal**.

When a student first reports with an Enrollment Start Status of E1, that student continues to report for the rest of the school year in the event the start status changes.

The Enrollment Start Statuses (State Start Status) of **R5: Re-Enroll - previous W1** and **R6: Re-Enroll - previous W2** are included in the report ONLY when the prior enrollment has an End Status of W1, W2 or W2T. The enrollment and attendance data within that enrollment is reported under the previous E1/E2 enrollment in the same school. R5/R6 enrollments without previous E1/E2 enrollments in the same school do not report on the PMR.

Only enrollment data from those schools where the fourth digit of the school number is greater than or equal to 300 reports. See the [Data Setup](#) section for details.

Refer to the [Department of Public Instruction](#) for additional information.

Attendance Calculations

[Average Daily Attendance \(ADA\)](#) | [In Membership](#) | [Not In Membership](#) | [In Violation](#) | [Not in Violation](#) | [Basic PMR Calculation](#) | [How Attendance Codes Affect ADA and ADM](#)

The PMR calculates attendance information using the following calculations, logic, and terminology. Note that the PMR uses the State Code assigned to the Attendance Record only. For guidance on attendance codes, refer to the [Attendance Code Setup article \(NCSIS\)](#).

Attendance Code Setup - State Code Assignment

Average Daily Attendance (ADA)

Average Daily Attendance (ADA) for the North Carolina Principal's Monthly Report is based on the student's absent and present status by evaluating Unexcused and Excused absences separately. The student's absent or present status is based on the combined sum of Unexcused and Excused absence time.

Summary of PMR ADA Logic

The following table provides information on how ADA totals are summarized for the PMR.

Question	If Yes...	If No...
1. Have all instructional school days for the selected PMR Month that are marked as both Instruction and School Day in the Day Setup tool been identified?	Proceed to Step 2.	Mark all applicable days as Instruction and School Day in the Day Setup tool, then proceed to Step 2.
2. For each instructional day, have the following student-level procedures been completed? See the table in the Determination of Absent or Present for Individual Days for guidance.	Proceed to Step 3.	Complete the required steps for each student for that instructional day, then proceed to Step 3.
3. Have the student's total present days (in membership and not in violation) for the PMR Month been counted?	Proceed to Step 4.	Count the student's present days for the PMR Month, then proceed to Step 4.

Question		If Yes...	If No...
4.	Has the total number of instructional days for the student in the PMR School Month been determined?	<p>Divide the student's total present days in the PMR School Month by the total instructional days in the PMR School Month.</p> <p>This value is used for attendance reporting.</p>	Identify the total number of instructional days for the student in the PMR School Month, then repeat Step 4.

Determination of Absent or Present for Individual Days

Present/Absent determination references the student day minutes instead of an individual student's scheduled minutes. The ADA calculation incorporates logic for calendar days with the Standard Code Day Event of 'AD.'

The following database fields are used in the calculation:

- CampusDictionary.standardCode
- Day.eventType
- DayEvent.instructionalMinutes
- Calendar.studentDay

Question		If Yes...	If No...
1.	Is the student's Scheduled Instructional Minutes greater than or equal to 50% of the total student day minutes?	Proceed to Step 2.	The student is excluded from PMR Reporting.

Question	If Yes...	If No...
<p>2. For the Instructional Day being analyzed, does the day have a Day Event scheduled with a Standard Code Day Event of AD?</p>	<p>The Instructional Minutes from the Day Setup are used as the denominator for the student's individual day absence calculation.</p> <p>Proceed to Step 3.</p> <hr/> <p>If there is more than one Day Event scheduled on that day with a Standard Code of AD, and more than one Day Event has Instructional Minutes added, the average of the Instructional Minutes from the Day Events that have a Standard Code of AD is used as the denominator for the student's individual day absence calculation.</p> <p>Proceed to Step 3.</p>	<p>The Student Day Minutes from the Calendar Information are used as the denominator for the student's individual day absence calculation.</p> <p>Proceed to Step 3.</p>
<p>3. For the day being analyzed, SUM the Excused and Unexcused Absence Minutes for the student and divide by the identified denominator in Step 2.</p> <p>Is that total greater than 50%?</p>	<p>The student is considered ABSENT.</p>	<p>Proceed to Step 4.</p>
<p>4. Of the student's scheduled minutes, are any of those courses scheduled during a period marked as Non-Instructional?</p>	<p>The student is considered ABSENT.</p>	<p>The student is considered PRESENT.</p>

In Membership

A student is considered **In Membership** when ANY of the following are true:

- The student is on-site AND at least 50% present on their first day of enrollment.

- The student is enrolled in Staggered Kindergarten AND assigned to be at home on the first day of school.
- The student has a primary enrollment with an Admission Status of **MST1: Member - Standard Day Program** or **MED1: Member - Extended Day Program** AND scheduled more than 50% (this is an exact - not rounded - calculation; students scheduled 49.9% of the day are not eligible).
- The student is identified as Medically Fragile (has attendance records with a State Code of **1S: Hospital/Homebound**).
- The student is enrolled in a publish school AND in a Teacher-in-Treatment Program (has attendance records with a State Code of **1H: Teacher-in-Treatment**).
- The student is scheduled into one or more NC Virtual Public School courses AND **NOT enrolled in a private school or home school**.
- The student's enrollment has a State Grade Level of Pre-K and an Admission State of **MST1: Member - Standard Day Program**.

Not In Membership

A student is considered **Not In Membership** until the first day the student is in attendance.

A student is considered **Not In Membership** when ANY of the following are true:

- It is before the start date of the enrollment record. Students who are not present on their initial enrollment day must have their Enrollment Start Date moved forward until they have met the requirements to be present.
- The student is not enrolled in Staggered Kindergarten or is enrolled in Staggered Kindergarten but not in attendance on the first day of enrollment.
- The student's Admission Status on the Enrollment record is VST1: Visitor - Standard Day Program/Foreign Exchange Student.
- The student has a primary enrollment with an Admission Status of **MST1: Member - Standard Day Program** or **MED1: Member - Extended Day Program** AND scheduled LESS than 50% (this is an exact - i.e., not rounded - calculation; students scheduled 50% of the day are eligible).

In Violation

The student is considered **In Violation** (also known as the **10-Day Rule**) when ANY of the following are true:

- The student has ten consecutive absences marked as unexcused based on the date the report is generated.
- Examples:
 - When a student has nine days of consecutive absence at the end of PMR 1 and one day of absence at the start of PMR 2 [Total of 10 consecutive absence between 2 school months], and the report is generated on the first day of PMR2, the student does not meet the requirements of being in violation.
 - When a student has nine days of consecutive absence at the end of PMR 1 and one day of absence at the start of PMR 2 [Total of 10 consecutive absences between 2 school months], and the report is generated on the second day of PMR2, the student does meet the requirements of being in violation.

Not in Violation

The student is considered **Not In Violation** when ANY of the following are true:

- The student is present for that day.
- The student has an attendance record for that day with one of the following State Codes:
 - 1H: Teacher-In-Treatment
 - 1M: Medically Fragile
 - 1S: Hospital/Homebound
 - 1R: Present Off-Site
 - 1Q: School Sponsored Activity
- The student has an attendance event that does not have one of the State Codes above and is NOT considered in violation (marked absent for ten consecutive days)
- The student is considered to be in violation but is marked present (no attendance events) on the 11th day.
- The student was suspended for any length of time.
- When the student has 10 consecutive unexcused absences causing violation days and returns on the 11th day or after in one PMR interval (school month), the 10 or more consecutive days remain as violation days, but the student does not show as a membership violations, and continues to be counted in membership.

Basic PMR Calculation

This report uses the following guidelines for most of the reported fields.

When...	Then...
When Grade Level is STANDARD	<ul style="list-style-type: none"> • The student's Admission Status (Enrollments > State Reporting Fields > Admission Status) needs to be MST1: Member - Standard Day Program OR MED1: Member - Extended Day Program. • The State Grade Level Code CANNOT be one of the PK, P0-P3.
When Grade Level is STANDARD TOTAL	All standard enrollments are summed.
When Grade Level begins with XG	The State Grade Level Code needs to be UG (Ungraded).
When Grade Level begins with XG Total	All XG enrollments are summed.
When Grade Level begins with School Total	The sum of Standard Total, XG Total, and Extended Total reports.

When...	Then...
When Grade Level begins with PK	<ul style="list-style-type: none"> The student's Admission Status (Enrollments > State Reporting Fields > Admission Status) needs to be MST1: Member - Standard Day Program. The State Grade Level Code must be PR, PK, or P0-P3.

How Attendance Codes Affect ADA and ADM

This table shows how the Attendance Codes affect the attendance calculations - positively (+), negatively (-), or no impact (N/A).

Attendance Code	ADA	ADM	Absence Count for 10-day	Present Remote (1R)	Present On-Site	Present Off-Site (1H, 1M, 1Q, 1S)	ADA Absence Day Count
Lawful Absence (excused)							
3: Out-of-School Suspension (Excused absence)	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1A: Illness or Injury	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1B: Medical or Dental Appointment	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1C: Death in the Immediate Family	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1D: Quarantine- or Covid-Related Absence	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1E: Court or Administrative Proceedings	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1F: Religious Observance	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1G: Educational Opportunity	(-)	(+)	N/A	N/A	N/A	N/A	(+)

Attendance Code	ADA	ADM	Absence Count for 10-day	Present Remote (1R)	Present On-Site	Present Off-Site (1H, 1M, 1Q, 1S)	ADA Absence Day Count
1N: Absence Related to Parent's Deployment Activities	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1P: Early Checkout	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1I: Local School Board Policy	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1K: Child Care	(-)	(+)	N/A	N/A	N/A	N/A	(+)
1T: Inaccessible Roads	(-)	(+)	N/A	N/A	N/A	N/A	(+)
Present Off-Site (exempt)							
1H: Teacher In-Treatment	(+)	(+)	N/A	N/A	N/A	(+)	N/A
1M: Medically Fragile	(+)	(+)	N/A	N/A	N/A	(+)	N/A
1Q: School-Sponsored Activity	(+)	(+)	N/A	N/A	N/A	(+)	N/A
1S: Hospital/Homebound Instruction	(+)	(+)	N/A	N/A	N/A	(+)	N/A
Present On-Site							
1L: Excused Tardy	(+)	(+)	N/A	N/A	(+)	N/A	N/A
1X: Nonobligatory Pre-K Attendance	(+)	(+)	N/A	N/A	(+)	N/A	N/A
2L: Unexcused Tardy	(+)	(+)	N/A	N/A	(+)	N/A	N/A
3A: In-School Suspension	(+)	(+)	N/A	N/A	(+)	N/A	N/A
No Mapped State Attendance Code	(+)	(+)	N/A	N/A	(+)	N/A	N/A
Present Remote							
1R: Present Off-Site	(+)	(+)	N/A	(+)	N/A	N/A	N/A
Unlawful Absence (unexcused)							

Attendance Code	ADA	ADM	Absence Count for 10-day	Present Remote (1R)	Present On-Site	Present Off-Site (1H, 1M, 1Q, 1S)	ADA Absence Day Count
2A: Unlawful Absence	(-)	(+)	(+)	N/A	N/A	N/A	(+)
2B: Lack of Immunization	(-)	(+)	(+)	N/A	N/A	N/A	(+)
2C: No Health Assessment	(-)	(+)	(+)	N/A	N/A	N/A	(+)
No Processing Category							
In Violation (10-day rule)	N/A	N/A	N/A	N/A	N/A	N/A	N/A
Withdrawn (enrollment)	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Report Editor

Data Element	Description
Setup	
Search Calendars	<p>Use the search field to narrow the list of calendars to select. Use the Expand All/Collapse All option. Place a checkbox next to the desired school and calendars.</p> <p>As noted, all calendars are automatically selected because this is a school-wide report.</p> <p>For State Edition users, calendars display by School Year, by District, then by School Name.</p>
Show Active Year Only	<p>Only those calendars for the school year are available for selection when set to ON.</p> <p>When set to OFF, all calendars from all school years are available for selection based on the user's tool rights.</p>
Report Options	

Data Element	Description
Extract Type	<p>Determines which PMR report generates. Options:</p> <ul style="list-style-type: none"> • PMR Summary • PMR Best 1 of 2 • PMR Detail • Students Not Included in the PMR Summary • GRS Summary • GRS Detail <p>The PMR Summary is the only report that includes the Generate and Submit Verification options for users assigned proper tool rights. All other reports have the Review option.</p>
School Month Sequence	<p>Indicates which School Month is being reported. Select one school month from the list.</p> <p>Special School Month Logic</p> <p>For School Month 2, results are stored in a temporary table to have the Verify column populate with a value of 1. First, generate the PMR Summary with the School Month Sequence field set to 2. Then generate PMR Summary again with the School Month Sequence field set to 1 with the Effective Date equal to the Report Date. Those results are saved to a temporary table. When the Verify button is selected, the Verify column populates with a value of 1.</p> <p>For School Month 9, results from all previous School Months 1-8 are used to have results for Month 9. Generate the reporting for all PMR Intervals, including Month 9 where the Effective Date equals the Reporting Date. Results for PMR Intervals 1-8 are stored to a temporary table first, then results are displayed for Revision 9.</p> <p>PMR Intervals 1-8 are only created once PMR Interval 9 is generated. Those months are looking at that month's specific information but with the effective date as the date when Month 9 was last generated.</p>
Ad hoc Filter	<p>Allows selection of a filter that was previously created. Only students included on the selected filter return on the report.</p> <p>This option is available with the Extract Types of PMR Detail, Students Not Included in PMR Summary, and GRS Detail.</p>
Output Options	

Data Element	Description
Report Processing	<p>This is a complex report and requires several minutes to create the data snapshot. Because of this, it always needs to be generated using the Submit to Batch option.</p> <p>The Batch Queue processing can be used for both the report generation and the report review, allowing results to be reviewed at a later time.</p> <p>The Snapshot being compared is taken at the same time as the PMR summary and only students who report on the PMR summary are used in the counts. Submitting to Batch is useful when generating the report for several calendars or for more significant amounts of reported data. See the Batch Queue article for more information.</p>
Format Type	Determines in which format the report generates - CSV or HTML.
