

NC Principal's Monthly Report Extract

Last Modified on 10/30/2024 4:18 pm CDT

[Getting Started with the PMR](#) | [PMR Workflow](#) | [Report Logic](#) | [Report Editor](#) | [Next Steps](#)

Tool Search: NC PMR Extract

The **PMR (Principal's Monthly Report) Extract** contains enrollment, membership, and attendance information. It is collected by NCDPI at the end of each school month for nine months and is used as the source data for calculating the following:

- Average Daily Membership
- Average Daily Attendance
- Enrollment
- Membership Last Day
- Violation Status

This article provides information on how to properly enter data into Campus to generate the PMR from Campus. It does not provide details on policies and procedures for schools and districts; for that information, consult the [North Carolina Department of Public Instruction website](#).

The screenshot displays the 'NC PMR Extract' configuration interface. It includes sections for 'Instructions', 'Set Up', 'Report Options', 'Output Options', and 'Batch Queue Results'. The 'Report Options' section shows 'Extract Type' set to 'PMR Summary' and 'School Month Sequence' set to '1'. The 'Output Options' section has 'Report Processing' set to 'Submit to Batch Queue' and 'Format Type' set to 'HTML'. The 'Batch Queue Results' section shows a table with one entry: 'PMRExtract' with a 'Queued Time' of '08/22/2024 8:33:25 AM' and a status of 'COMPLETED'. At the bottom, there are buttons for 'Generate', 'Review', and 'Submit Verification'.

NC PMR Extract

Read - Access and view the PMR Extract.

Write - Generate the PMR Extract.

Add - N/A

Delete - N/A

Additional tool rights are needed for this report. See the [Tool Rights](#) section below for details.

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

In Campus, *PMR Intervals* are called *School Months*.

Getting Started with the PMR

[Data Setup](#) | [Tool Rights](#)

Data Setup

Before generating the PMR, verify that the following tools and values are entered. For additional information, review the [PMR Validation Review](#).

▶ [Click here to expand...](#)

Tool and Required Data	Information
<p>School Information</p> <p>The State School Number is entered and meets the following requirements:</p> <ul style="list-style-type: none"> • Six digits in length, where the first three characters are the State District Number and the last three digits are a unique school identifier. • The last three digits must be higher than 300 - 090365, 090385, etc., - or the third character is a letter - 99B378, etc. 	 <p style="text-align: center;"><i>School Information - State School Number</i></p>
<p>Calendar Information</p>	

Tool and Required Data

The following fields are populated on the Calendar Information editor:

- **Student Day (instructional minutes)**
- **Teacher Day (minutes)**
- **Whole Day Absence (minutes)**

Information

Student Day, Teacher Day, Whole Day Absence - Calendar Information

When the school operates using Tracks, the **Track** field on the Calendar must be set for each track.

This can be left blank for schools that do not operate using tracks.

Calendar Track Field

Grade levels are configured for the selected calendar AND aligned to the correct **State Grade Level Code** in [Grade Level Setup](#).

State Grade Level Code Assigned to Grade Levels

Calendar terms are set up with a **Term Schedule Name** (Trimesters, Quarters, etc.). Individual terms are named, have a Sequence, a Start Date, and an End Date

Term	Sequence	Start Date	End Date
Q1	1	08/26/2023	09/16/2023
Q2	2	09/17/2023	01/01/2024
Q3	3	01/02/2024	03/15/2024
Q4	4	03/16/2024	07/20/2024

Term Setup

Tool and Required Data

Period Schedules exist when needed (rotating schedules, block scheduling, etc.), and Periods are entered with the correct sequences and names for each **period** in the school day.

Information

Period Setup

Calendar Days have been set using the Day Reset tool, and each day in the calendar is marked correctly for **Day Events**, **School Days**, **Instruction Days**, and **Attendance Days**.

Day Setup

School Months are entered according to **state requirements**:

- There are a **total of nine School Months** in a calendar.
- School Month 1 and School Month 2 are 20 school days in length.
- The remaining School Months can have a total of school days from 16 to 26.

For School Months 1 and 2, students **CANNOT** be counted for more than 20 instructional days.

For the other school months, students cannot exceed the number of instructional days included in that school month.

School Months

Students

Tool and Required Data

Students have a **primary** Enrollment record in a school in the active school year AND:

- Have a **Local Start Status** that is mapped to a **State Start Status**.
- Have an Admission Status of **MST1: Member - Standard Day Program** or **MED1: Member - Extended Day Program**.
- For transfer students, the **Year-Round Transfer Days Override** is populated. When a student transfers from one school to another, that results in an overage of Membership. The receiving school needs to indicate how many days the student's membership is reduced for the days that were accounted for by the previous school.

Information

Student Enrollment Record

Students must be enrolled in a correct grade level based on their calendar of enrollment.

Student Information - Grade Level

Students are **scheduled** into courses.

	Q1 (8/28/2023 - 10/16/2023)	Q2 (10/17/2023 - 1/1/2024)	Q3 (1/2/2024 - 3/15/2024)	Q4 (3/16/2024 - 7/31/2024)

Tool Rights

Access to the **NC PMR Extract** requires the following tool rights. This tool right can be assigned to a user group, if desired.

- **Read** rights provide access to view the report editor.
- **Write** rights allow the report to be generated.

The **NC PMR Extract Submission** tool rights must be manually assigned to a designated user and not through a user group. The user assigned this subright must exist at the State Edition level and have a Staff NC DPI ID.

- Read rights provide access to view the report editor.

- Write rights allow the report to be generated.

ONLY A LIMITED NUMBER OF STAFF SHOULD BE ASSIGNED TOOL RIGHTS TO THE PMR EXTRACT PERMISSION SUB-RIGHT.

Because this report requires the same individual who submits the data to verify the data, only 1-2 people in a school should be assigned both the NC PMR Extract and the NC PMR Extract Submission Permission tool rights.

The screenshot shows the 'User Tool Rights Editor' for user 'kyle.johnson'. The interface lists various tool rights categories and their corresponding permissions. The 'NC PMR Extract' and 'NC PMR Extract Submission' rows are highlighted with a red box, indicating the specific permissions assigned to the user.

PMR Workflow

[PMR Summary](#) | [Data Validation Reports](#) | [PMR Detail](#) | [Students Not Included in the Summary](#) | [GRS Summary](#) | [GRS Detail](#) | [PMR Best 1 of 2](#)

Follow this workflow for generating the PMR Extract.

1. Generate PMR Summary by using the **Submit to Batch Queue** option.
2. Once complete, download the report. Data validations run in the background, and any FATAL errors found in the validation reports must be addressed before regenerating the PMR Summary (step 3). A link to the validation reports can be found in the Instructions section of the report editor.
3. Regenerate the PMR Summary.
4. Review the PMR Summary.
5. Submit Verification the PMR Summary.

6. Generate the remaining PMR Extracts.

PMR Summary

Article: [PMR Summary Report](#)

The Summary Extract Type is the originating data pull submitted to the state. It can be generated anytime but must be submitted within ten days after data validations and PMR Review have occurred. Other extract types use that snapshot for calculations.

The effective date for determining violation status is based on the report generation date, up to ten days after the School Month end date. Once the ten days have occurred, the report uses the end date plus 10 as the effective date.

1. **Generate** the report for a particular school month. This creates a snapshot of data as of the date it is generated. Once the snapshot is created, the state validations are queried to ensure no fatal errors exist. When there is a fatal error, an error message displays asking to review the validations, make corrections, and generate the report again.

PMR Summary Records:4																										
PSU	SchoolNumber	SchoolName	EndYear	PMR Month	Submitted	GeneratedBy	GeneratedTime	VerifiedBy	VerifiedTime	SummaryGroup	StateGrade	ADA	ADM	E1	E2	R1	R2	R3	StartStatusTotal	W1	W2	W3	W4	W21	EndSta

PMR Summary - Generate

2. Make necessary corrections to data.
3. **Generate** the PMR Summary again with the same information as selected previously.
4. **Review** the report for the same school month that was initially generated. This pulls data from the snapshot previously created; if changes were made to enrollment records or attendance data between the time the snapshot was first created and the date the data was reviewed, those changes are not reflected in the review results. To see those results, generate the report again.
 - Before displaying the results, the list of state validation errors is reviewed to verify no fatal errors. When there are no errors, the report displays; when there are errors, a warning message displays, directing the user to review the validations and generate the PMR again.
 - When Review has been selected BEFORE the validations have completed, a warning message displays indicating the validation report is still running and to wait for that to complete before reviewing the data.

PMR Summary Review Records:4

PMR Summary - Review

5. **Submit the Verification.** This step sends the snapshot results to the state, and no further changes to data can be made. The individual at the school who generates the PMR must also submit the verification. Once data has been submitted, that school month selection cannot be

generated or re-submitted. Users may continue to review the data from the month of submission, but updates to student data will not be reflected in the report.

PMR Summary Verification

Data Validation Reports

Article: [Data Validation Reports](#)

When the PMR is submitted to the batch queue, the data snapshot is taken, and data validation reports run in the background. If fatal errors are found, a message indicates that they must be addressed prior to regenerating the report.

The Instructions section on the report editor includes a link to the Validation Reports.

The following validation reports are owned and managed by NC DPI.

- PMR Fatafs
- PMR Warnings
- PMR Information

PMR Detail

Article: [PMR Detail](#)

The Detail Extract Type includes the same fields as the PMR Summary, broken down by student and demographic data. Once the PMR Summary is generated, the PMR Detail can be reviewed.

Changes made to student data are not reflected in the report until a new summary is generated. When the summary has already been submitted, the report does not update, as a new Summary snapshot cannot be taken to update the snapshot data.

GRS Detail

PMR Best 1 of 2

Article: [PMR Best 1 of 2](#)

The **PMR (Principal's Monthly Report) Best 1 of 2** report compares ADM calculations

submitted in School Month 2 with ADM calculations for School Month 1R. The 1R Snapshot is taken at the same time as School Month 2 for School Month 1 but uses the effective date from School Month 2 for determining violation status. The higher ADM for each grade level is then totaled by grade level across the PSU.

The snapshot being compared is taken at the same time as the PMR summary, and only students who report on the PMR summary are used in the counts.

PMR Best 1 of 2 Records:1

PMR Best 1 of 2

Report Logic

The PMR reports aggregated enrollment numbers for the calendars selected for each school month selected in the Report Editor. This is a school-wide report; all calendars must be selected when generating and submitting data.

Only information from enrollments with a Service Type of Primary is included.

Enrollment records DO NOT REPORT when the following is true:

- The Enrollment Admission Status is:
 - **VED1: Visitor - Extended Day Program**
 - **VST1: Visitor - Standard Day Program/Foreign Exchange Student**
 - **VST2: Visitor - Temporary Status**
- The Enrollment Record, Grade Level or Calendar is marked as **State Exclude** or **No Show**.
- The previous Enrollment End Status (State End Status) is **W1: Transfer Withdrawal** or **W2: Early Leaver Withdrawal**.

The Enrollment Start Statuses (State Start Status) of **R5: Re-Enroll - previous W1** or **R6: Re-Enroll - previous W2** are not uniquely reported in the PMR, specifically for the GRS Summary. However, the enrollment and attendance data within that enrollment is reported under the previous E1/E2 enrollment in the same school. R5/R6 enrollments without previous E1/E2 enrollments in the same school do not report on the PMR.

Only enrollment data from those schools where the fourth digit of the school number is greater than or equal to 300 reports. See the [Data Setup](#) section for details.

Refer to the [Department of Public Instruction](#) for additional information.

Attendance Calculations

The PMR calculates attendance information using the following calculations, logic, and terminology. Note that the PMR uses the State Code assigned to the Attendance Record only. For guidance on attendance codes, refer to the [Attendance Code Setup article \(NCSIS\)](#).

Attendance Code Setup - State Code Assignment

▶ [Click here to expand...](#)

In Membership

A student is considered **In Membership** when ANY of the following are true:

- The student is on-site AND at least 50% present on their first day of enrollment.
- The student is enrolled in Staggered Kindergarten AND assigned to be at home on the first day of school.
- The student has a primary enrollment with an Admission Status of **MST1: Member - Standard Day Program** or **MED1: Member - Extended Day Program** AND scheduled more than 50% (this is an exact - not rounded - calculation; students scheduled 49.9% of the day are not eligible).
- The student is identified as Medically Fragile (has attendance records with a State Code of **1S: Hospital/Homebound**).
- The student is enrolled in a publish school AND in a Teacher-in-Treatment Program (has attendance records with a State Code of **1H: Teacher-in-Treatment**).
- The student is scheduled into one or more NC Virtual Public School courses AND **NOT enrolled in a private school or home school**.
- The student's enrollment has a State Grade Level of Pre-K and an Admission State of **MST1: Member - Standard Day Program**

Not In Membership

A student is considered **Not In Membership** until the first day the student is in attendance.

A student is considered **Not In Membership** when ANY of the following are true:

- It is before the start date of the enrollment record. Students who are not present on their initial enrollment day must have their Enrollment Start Date moved forward until they have met the requirements to be present.
- The student is not enrolled in Staggered Kindergarten or is enrolled in Staggered Kindergarten but not in attendance on the first day of enrollment.

- The student's Admission Status on the Enrollment record is VST1: Visitor - Standard Day Program/Foreign Exchange Student.
- The student has a primary enrollment with an Admission Status of **MST1: Member - Standard Day Program** or **MED1: Member - Extended Day Program** AND scheduled LESS than 50% (this is an exact - i.e., not rounded - calculation; students scheduled 50% of the day are eligible).

In Violation

The student is considered **In Violation** (also known as the **10-Day Rule**) when ANY of the following are true:

- The student has ten consecutive absences marked as unexcused based on the date the report is generated.
- Examples:
 - When a student has nine days of consecutive absence at the end of PMR 1 and one day of absence at the start of PMR 2 [Total of 10 consecutive absence between 2 school months], and the report is generated on the first day of PMR2, the student does not meet the requirements of being in violation.
 - When a student has nine days of consecutive absence at the end of PMR 1 and one day of absence at the start of PMR 2 [Total of 10 consecutive absences between 2 school months], and the report is generated on the second day of PMR2, the student does meet the requirements of being in violation.

Not in Violation

The student is considered **Not In Violation** when ANY of the following are true:

- The student is present for that day.
- The student has an attendance record for that day with one of the following State Codes:
 - 1H: Teacher-In-Treatment
 - 1M: Medically Fragile
 - 1S: Hospital/Homebound
 - 1R: Present Off-Site
 - 1Q: School Sponsored Activity
- The student has an attendance event that does not have one of the State Codes above and is NOT considered in violation (marked absent for ten consecutive days)
- The student is considered to be in violation but is marked present (no attendance events) on the 11th day.
- The student was suspended for any length of time.
- When the student has 10 consecutive unexcused absences causing violation days and returns on the 11th day or after in one PMR interval (school month), the 10 or more consecutive days remain as violation days, but the student does not show as a membership violations, and continues to be counted in membership.

Basic PMR Calculation

This report uses the following guidelines for most of the reported fields.

When...	Then...
When Grade Level is STANDARD	<ul style="list-style-type: none"> The student's Admission Status (Enrollments > State Reporting Fields > Admission Status) needs to be MST1: Member - Standard Day Program OR MED1: Member - Extended Day Program. The State Grade Level Code CANNOT be one of the PK, P0-P3.
When Grade Level is STANDARD TOTAL	All standard enrollments are summed.
When Grade Level begins with XG	The State Grade Level Code needs to be UG (Ungraded).
When Grade Level begins with XG Total	All XG enrollments are summed.
When Grade Level begins with School Total	The sum of Standard Total, XG Total, and Extended Total reports.
When Grade Level begins with PK	<ul style="list-style-type: none"> The student's Admission Status (Enrollments > State Reporting Fields > Admission Status) needs to be MST1: Member - Standard Day Program. The State Grade Level Code must be PR, PK, or P0-P3.

How Attendance Codes Affect ADA and ADM

This table shows how the Attendance Codes affect the attendance calculations - positively (+), negatively (-), or no impact (N/A).

1S: Hospital/Homebound Instruction	(+)	(+)	N/A	N/A	N/A	(+)	N/A

Attendance Code	ADA	ADM	Absence Count for 10-day	Present Remote (1R)	Present On-Site	Present Off-Site (1H, 1M, 1Q, 1S)	ADA Absence Day Count
Present On-Site							
1L: Excused Tardy	(+)	(+)	N/A	N/A	(+)	N/A	N/A
1X: Nonobligatory Pre-K Attendance	(+)	(+)	N/A	N/A	(+)	N/A	N/A
2L: Unexcused Tardy	(+)	(+)	N/A	N/A	(+)	N/A	N/A
3A: In-School Suspension	(+)	(+)	N/A	N/A	(+)	N/A	N/A
No Mapped State Attendance Code	(+)	(+)	N/A	N/A	(+)	N/A	N/A
Present Remote							
1R: Present Off-Site	(+)	(+)	N/A	(+)	N/A	N/A	N/A
Unlawful Absence (unexcused)							
2A: Unlawful Absence	(-)	(+)	(+)	N/A	N/A	N/A	(+)
2B: Lack of Immunization	(-)	(+)	(+)	N/A	N/A	N/A	(+)
2C: No Health Assessment	(-)	(+)	(+)	N/A	N/A	N/A	(+)
No Processing Category							
In Violation (10-day rule)	N/A	N/A	N/A	N/A	N/A	N/A	N/A
Withdrawn (enrollment)	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Report Editor

Data Element	Description
Setup	

Data Element	Description
Search Calendars	<p>Use the search field to narrow the list of calendars to select. Use the Expand All/Collapse All option. Place a checkbox next to the desired school and calendars.</p> <p>As noted, all calendars are automatically selected because this is a school-wide report.</p> <p>For State Edition users, calendars display by School Year, by District, then by School Name.</p>
Show Active Year Only	<p>Only those calendars for the school year are available for selection when set to ON.</p> <p>When set to OFF, all calendars from all school years are available for selection based on the user's tool rights.</p>
Report Options	
Extract Type	<p>Determines which PMR report generates. Options:</p> <ul style="list-style-type: none"> • PMR Summary • PMR Best 1 of 2 • PMR Detail • Students Not Included in the PMR Summary • GRS Summary • GRS Detail <p>The PMR Summary is the only report that includes the Generate and Submit Verification options for users assigned proper tool rights. All other reports have the Review option.</p>
School Month Sequence	<p>Indicates which School Month is being reported. Select one school month from the list.</p>
Ad hoc Filter	<p>Allows selection of a filter that was previously created. Only students included on the selected filter return on the report.</p> <p>This option is available with the Extract Types of PMR Detail, Students Not Included in PMR Summary, and GRS Detail.</p>
Output Options	

Data Element	Description
Report Processing	<p>This is a complex report and requires several minutes to create the data snapshot. Because of this, it always needs to be generated using the Submit to Batch option.</p> <p>The Batch Queue processing can be used for both the report generation and the report review, allowing results to be reviewed at a later time.</p> <p>The Snapshot being compared is taken at the same time as the PMR summary and only students who report on the PMR summary are used in the counts. Submitting to Batch is useful when generating the report for several calendars or for more significant amounts of reported data. See the Batch Queue article for more information.</p>
Format Type	Determines in which format the report generates - CSV or HTML.

Next Steps
