Report Editor

Data Element	Description
Set Up	
Search Calendars	Use the search field to narrow the list of calendars to select. Use the Expand All/Collapse All option. Place a checkbox next to the desired school and calendars. As noted previously, all calendars are automatically selected because this is a school-wide report.
Show Active Year Only	When set to ON, only those calendars for the school year are available for selection. When set to OFF, all calendars from all school years are available for selection based on the user's tool rights.
Report Options	
Extract Type	Determines which PMR report generates. For this instance, select **GRS Summary**.
School Month Sequence	Indicates which School Month is being reported. Select one school month from the list. In Campus, *PMR Intervals* are called *School Months*.
Output Options	
Report Processing	This is a complex report and requires several minutes to create the data snapshot. Because of this, it always needs to be generated using the **Submit to Batch** option. The Batch Queue processing can be used for both the report generation and the report review, allowing results to be reviewed at a later time. The Snapshot being compared is taken at the same time as the PMR summary and only students who report on the PMR summary are used in the counts. Submitting to Batch is useful when generating the report for several calendars or for more significant amounts of reported data. See the Batch Queue article for more information.
Format Type	Determines in which format the report generates - CSV or HTML.

Follow this workflow for generating the PMR Extract.

1. Generate the PMR Summary.
2. Generate the Data Validation Reports.
3. Regenerate the PMR Summary.
