

Comparing OneRoster and Campus Data - Terms to Know

Last Modified on 08/07/2024 1:34 pm CDT

Because Campus and OneRoster store data differently, elements in Campus are mapped to elements in OneRoster. The following table describes mappings that are not self-evident.

| OneRoster Element | Campus Equivalent |
|-------------------|---|
| Academic Session | Term Schedules for a school Calendar. |
| Class | Section |
| Enrollments | Students - Roster records Teachers - Section Staff History records |
| Line Item | Standard/Task + Term + Section |
| Category | Posted Grade |
| Org | District & School |
| Result | Grading Score (including comments) |
