Comparing OneRoster and Campus Data - Terms to Know

Last Modified on 08/07/2024 1:34 pm CDT

Because Campus and OneRoster store data differently, elements in Campus are mapped to elements in OneRoster. The following table describes mappings that are not self-evident.

OneRoster Element	Campus Equivalent
Academic Session	Term Schedules for a school Calendar.
Class	Section
Enrollments	Students - Roster records Teachers - Section Staff History records
Line Item	Standard/Task + Term + Section
Category	Posted Grade
Org	District & School
Result	Grading Score (including comments)
