Tool Search: MT Extracts

The Roster Extract contains information related to student roster data. This extract matches the Roster Upload import file.

Tool Rights

Read - Generate extract.

Write - N/A

Add - N/A

Delete - N/A

Report Logic

This report can run against a district's active year as well as any prior year and in both District Edition and State Edition against District Edition data.

File Formats

The extract can be generated in the following formats:

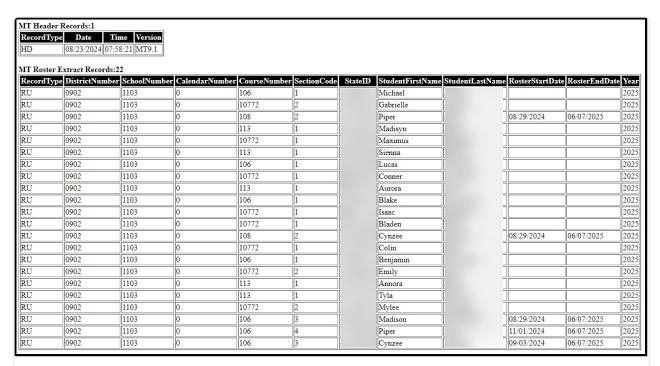

- State Format (TSV)
- HTML
- CSV
- XML

Use the State Format when all data has been reviewed for accuracy and information is ready to be uploaded. Use one of the other formats for data review and testing.

Generate Extract

- 1. Select the **Roster** option from the **Extract Type** dropdown list.
- 2. Select the desired Format from the dropdown list.
- 3. Choose the desired calendar(s) from the Calendar list.
- 4. Click the **Generate Report** button. The extract displays in a new window in the selected format.
