Tool Search: Enrollments

The Enrollments tool displays all student enrollment occurrences in the district. Since this is an historical view, the list could be quite long.

Enrollments are listed by grade level first, then by enrollment start date. To reorder the list of enrollments, click the blue hyperlinked headers in the Enrollments Editor list. Enrollment records can be sorted by Grade, Calendar, Start Date, or End Date.

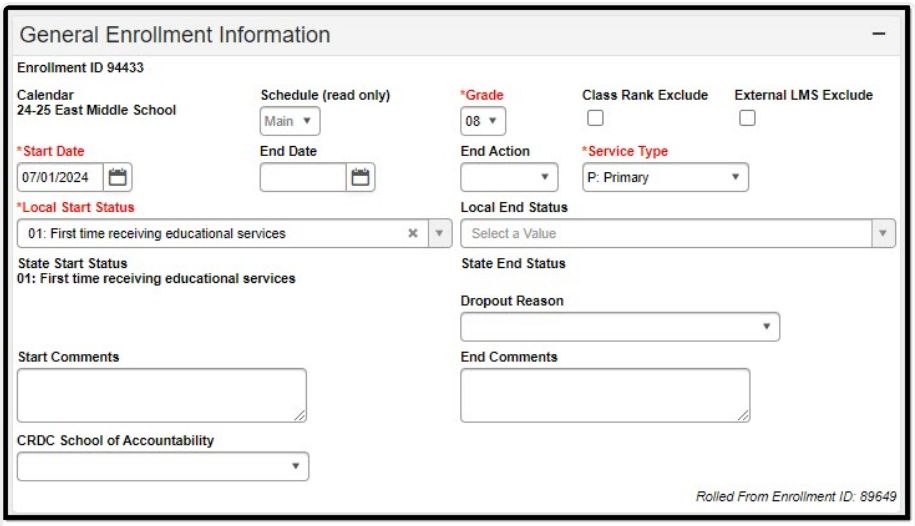

> See the core Enrollments article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Enrollment records.

Montana Enrollments Tool

General Enrollment Information
