Title 1 programs are considered either **Schoolwide** or **Targeted Assistance**.

When a school offers schoolwide assistance, the School History record needs to be set in the Title 1 field on their [School History](#) to **Schoolwide Program**.

When the school is set to Schoolwide Program, individual Title 1 records are not needed unless the

student's Title 1 services differ from the schoolwide services.

School data is divided into two areas: School Detail and School History. School History records contain information related to a school that can be tracked historically. By creating a new School History, the new information is tracked as of a specific date while the previous values are preserved. To create a new School History record, select an existing School History and click the New School History button. This will create a new School History record based on the current information, which can be modified as needed and saved.
