Tool Search: Student Immunization and Susceptibility Report

"Student Immunization and Susceptibility Report summarizes vaccine compliance for each student attending the school. This report also functions as Section B for OR's Immunization Primary Review Summary."

"The susceptibility report identifies students susceptible to a specific disease (students not complete for the vaccine or immune) in case of an outbreak (Oregon Administrative Rule 333-050-0100)."

See the [Oregon Immunization Rules](#) article for vaccine compliance rules and requirements.

B-D (Student Immunization and Susceptibility Report)	January 17
E (PRS Report)	March 4
F-H (PRS Report)	March 4

Report Population

Students report when:

- They are enrolled in the selected calendar on the Enrollment Date and have a current enrollment in the selected calendar. All enrollments end dated before the Enrollment Date are excluded.
- They are enrolled in the selected calendar on the Enrollment Date with a Service Type of P, S, or N and have a current enrollment in the selected calendar.

Students are excluded when:

- They are marked as No Show.
- They are in State Grade(s) UM, UE, and US.

Logic

- Student information repeats for each student enrolled in the selected calendar on the Enrollment Date.
- A single record per student reports.
- Compliance data pulls in from the ImmComplianceStatus database table.
- The report can be run against a district's active year or prior years.
- The report generates in human-readable format (HTML).
