

Vaccine Exemption Setup (Oregon)

Last Modified on 10/23/2024 9:32 am CDT

[Vaccine Exemption Detail Fields](#) | [Exemption Guidance](#) | [Add New Exemptions](#) | [Map State Exemptions](#) | [Tool Rights](#)

Tool Search: Vaccine Exemption

The Vaccine Exemption tool allows for the entry of acceptable reasons for waiving a student's immunization requirement.

This article describes the State Exemption codes and which vaccines are acceptable for each exemption for the state of Oregon. State Exemption codes must be mapped to every exemption to report correctly.

See the core [Vaccine Exemption Setup](#) article for additional information. For Oregon-specific vaccination compliance rules, see the [Oregon Immunization Rules](#) article.

Require Expires Date

Vaccines

- Diphtheria-tetanus-pertussis, combined [DTaP, DTP]
- Tetanus, Diphtheria and Acellular Pertussis [Tdap]
- Polio [IPV, OPV]
- Varicella
- Measles-Mumps Rubella [MMR]
- Hepatitis B [Hep B]

Vaccine Exemption Setup Tool

Vaccine Exemption Detail Fields

Fields	Description
Code <i>Required</i>	The code associated with the exemption.
Name <i>Required</i>	The name of the exemption.
Seq	The order in which the exemption displays in the list of exemptions. This is the order on the Vaccine Exemption editor and in the Student Immunization tool's Waiver dropdown field.
Start Date	The first day the exemption is active.
End Date	The last day the exemption is active.
State Exemption	The state exemption code required for reporting purposes. Options include: <ul style="list-style-type: none"> • I: Immunity • NMH: Non-Medical Healthcare Practitioner • NMO: Non-Medical Online • PM: Permanent Medical • TM: Temporary Medical
Require Expires Date	Marking this checkbox makes the exemption expiration date required on the student Immunizations tool.
Vaccines	A list of all vaccines from the Vaccine Setup tool that each exemption can apply.

Exemption Guidance

When a student has a waiver or exemption for a vaccine, the waiver or exemption reports regardless of compliance status. Only the exemption or waiver information displays on the student's Immunization tool and immunization reports.

Removing an exemption for a student or adding an expiration date automatically calculates the student's new compliance status. When a student is compliant or complete for a vaccine, consider adding an expiration date to the waiver or exemption or removing it altogether.

Add New Exemptions

1. Select the **New** button from the action bar. The Vaccine Exemption Detail editor displays.
2. Enter a **Code** for the exemption.
3. Enter a **Name** for the exemption.
4. Enter a **Seq**(uence) number to specify the order in which this exemption displays in the list of exemptions.
5. Optional: Enter a **Start and End Date** for the exemption by manually entering the date or clicking the calendar icon and selecting the date.

6. Select an exemption from the **State Exemption** dropdown. This must be done for all reported exemptions. See the [Map State Exemptions](#) section below for additional information.
7. Optional: Mark the **Require Expires Date** checkbox to make the exemption expiration date required on the student's Immunizations tool.
8. Mark the checkboxes of the vaccines for which the exemption applies.
9. Click the **Save** button when finished.

Map State Exemptions

[Immunity Waiver](#) | [Non-Medical Healthcare Practitioner](#) | [Non-Medical Online](#) | [Permanent Medical](#) | [Temporary Medical](#)

State Exemptions must be mapped to exemptions to report correctly. Below are listed all State Exemption and which vaccines are appropriate for each.

See the Oregon Department of Health for the most up-to-date information on acceptable exemptions for each vaccine.

Immunity Waiver

The Immunity Waiver is NOT an exemption but functions as a waiver for the vaccine. Immunity documentation is NOT allowed for DTaP, Tdap, Td, and Polio. DO NOT select DTaP, Tdap, Td, or Polio for this waiver. Appropriate vaccines for the Immunity Waiver include (click to enlarge screenshot example):

- Varicella
- Measles-Mumps Rubella [MMR]
- Hepatitis B [Hep B]
- Hepatitis A [Hep A]
- Haemophilus influenza, type B [Hib]
- Measles
- Rubella
- Mumps

Immunity Waiver Vaccines

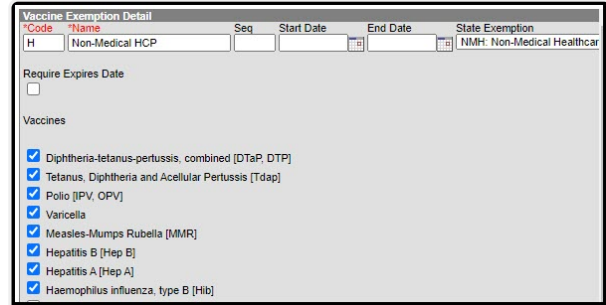

Non-Medical Healthcare Practitioner

Students with non-medical exemptions must be manually reviewed to confirm their

susceptibility and completion status.

Non-medical exemptions are only for MMR or MMRV, not for the individual Measles, Mumps, and Rubella doses. Appropriate vaccines for the Non-Medical Healthcare Practitioner exemption include (click to enlarge screenshot example):

- Diphtheria-tetanus-pertussis, combined [DTaP, DTP]
- Tetanus, Diphtheria and Acellular Pertussis [Tdap]
- Polio [IPV, OPV]
- Varicella
- Measles-Mumps Rubella [MMR]
- Hepatitis B [Hep B]
- Hepatitis A [Hep A]
- Haemophilus influenza, type B [Hib]

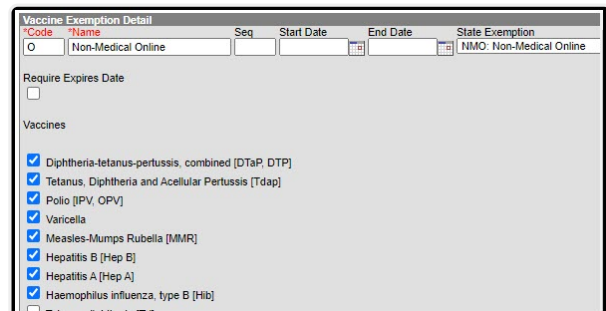

Non-Medical Healthcare Practitioner Exemption

Non-Medical Online

Students with non-medical exemptions must be manually reviewed to confirm their susceptibility and completion status.

Non-medical exemptions are only for MMR or MMRV, not for the individual Measles, Mumps, and Rubella doses. Appropriate vaccines for the Non-Medical Online exemption include (click to enlarge screenshot example):

- Diphtheria-tetanus-pertussis, combined [DTaP, DTP]
- Tetanus, Diphtheria and Acellular Pertussis [Tdap]
- Polio [IPV, OPV]
- Varicella
- Measles-Mumps Rubella [MMR]
- Hepatitis B [Hep B]
- Hepatitis A [Hep A]
- Haemophilus influenza, type B [Hib]

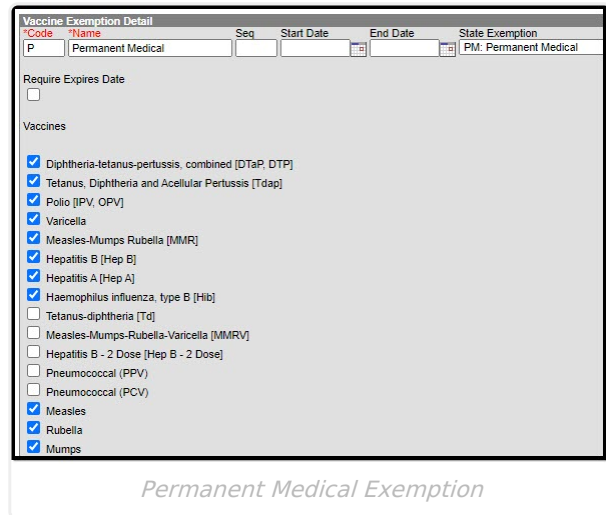

Non-Medical Online Exemption

Permanent Medical

Appropriate vaccines for the Permanent Medical exemption include (click to enlarge screenshot example):

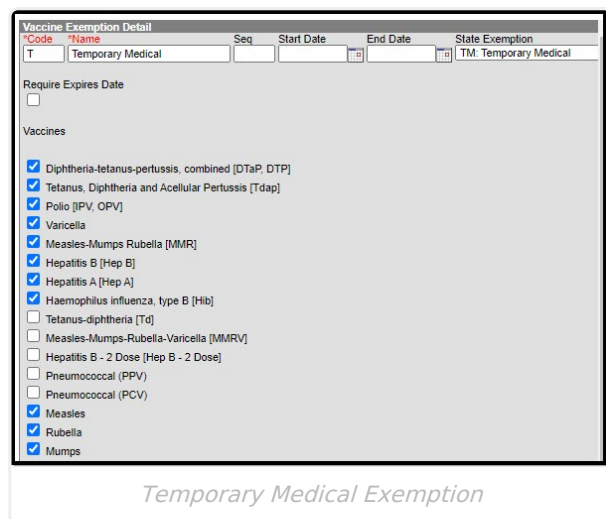

- Diphtheria-tetanus-pertussis, combined [DTaP, DTP]
- Tetanus, Diphtheria and Acellular Pertussis [Tdap]
- Polio [IPV, OPV]
- Varicella
- Measles-Mumps Rubella [MMR]
- Hepatitis B [Hep B]
- Hepatitis A [Hep A]
- Haemophilus influenza, type B [Hib]
- Measles
- Rubella
- Mumps

Temporary Medical

Appropriate vaccines for the Temporary Medical exemption include (click to enlarge screenshot example):

- Diphtheria-tetanus-pertussis, combined [DTaP, DTP]
- Tetanus, Diphtheria and Acellular Pertussis [Tdap]
- Polio [IPV, OPV]
- Varicella
- Measles-Mumps Rubella [MMR]
- Hepatitis B [Hep B]
- Hepatitis A [Hep A]
- Haemophilus influenza, type B [Hib]
- Measles
- Rubella
- Mumps

Tool Rights

Read - View existing exemptions.

Write - Edit existing exemptions.

Add - Create new exemptions.

Delete - Remove exemptions.

For additional information, see the [Individual User Tool Rights](#) article.
