Tool Search: SIRS Extracts

The SIRS Student Restraint Events extract is an annual report to the New York State Education Department regarding the use of restraints in behavior events. This includes physical restraints, timeouts, substantiated and unsubstantiated allegations of the use of prohibited interventions, corporal punishment, mechanical restraint, and other prohibited aversive interventions, prone physical restraint, and seclusion.

Extract Editor Fields

Field	Description	
Extract Type The name of the SIRS extract generated. This would be Student Rest Event.		
Calendar Selector	Identifies which Calendar(s) are included in the report. Calendars can be sorted by active year, school, or year. This defaults to the Calendar selected in the Campus Toolbar. At least one Calendar is required to generate the report.	
Start Date	The first day on which data is reported.	
End Date	The last day on which the data is reported.	

Field	Description
Format	The format in which the report generates. Options are State Format (CSV) or HTML.
Ad Hoc Filter	Limits the report results to students included in a pre-saved Ad hoc Filter. The Ad hoc Filter selection becomes available when the Ad Hoc Filter radio button is marked. See the <u>Filter Designer</u> article for additional information.
Column Headers	Allows users to select whether to include or exclude the column headers.
Generate Extract or Submit to Batch Users have the option of submitting a report request to the batch clicking Submit to Batch instead of immediately generating the clicking Generate Extract. The batch process allows larger reports generate in the background without disrupting the use of Campus information about submitting a report to the batch queue, see the Queue article.	

Report Logic and Population

A record reports per instance of physical restraint or timeout and for allegations concerning prohibited intervention types. See the <u>Codes and Descriptions</u> section below for Intervention Restrant definitions.

Multiple records report only when:

- A new situation occurs involving the student after the prior event has de-escalated.
- A new restraint or intervention response type is employed during the event. For example, during an event, a staff person employed physical restraint on a student, and the situation escalated to the point where a timeout was used. The addition of the timeout would constitute an additional event record beginning with that application.

The report can be generated against a district's active year and prior years.

Report Layout

#	Data Element	Description	Location
	Label		

#	Data Element Label	Description Location	
1	Submitting District Code	Reports the code of the district submitting the report. The "Submitting District Code" and "Student District Code" are populated with a different format depending on the "School Type" value populated on the School Information screen for the associated school. For public school districts, this reports as NY, followed by the 6-digit BEDS code for schools with a School Type of In-District Public School or Other Public School. For all other schools (charter, non-public, State agencies, state-operated schools, and child care institutions with schools), this reports as 8 followed by the last seven digits of their State District Number for all other School Types. Reports the District Number Override when populated. When null and: • When the School Type contains a 1 in the value field in the data dictionary, the prefix "NY" is added to the first 6 digits of the BEDS Code. • When the School Type does not contain a 1 in the value field in the data dictionary, a value of 8 plus the last 7 digits of the State District Number report. Alphanumeric, either NYXXXXXX or 8XXXXXXXX	Based on selection from School Information > School Type dropdown School Information > BEDS Code District Information > State District Number

#	Data Element Label	Description Location		
2	Student District Code	student attends.The "Submitting District Code" and "Student District Code" are populated with a different format depending on the "School Type" value populated on the School Information screen for the associated school. For public school districts, this reports as NY, followed by the 6-digit BEDS code for schools with a School Type of In-District Public School or Other Public School. For all other schools (charter, non-public, State agencies, state-operated schools, and child care institutions with schools), this reports as 8 followed by the last seven digits of their State District Number for all other School Types. Alphanumeric, either NYXXXXXXX or 8XXXXXXXX		
3	Student ID	Reports the student's State ID number. Alphanumeric, 9 digits (Including left-padded zeroes)	Demographics > Student State ID	
4	School Year Reports as June 30 of the reported school year. Date, YYYY-06-30 where YYYY is the reported school year		Calendar selector on extract editor	

#	Data Element Label	Description Location		
5	Restraint Event Location Code	The building code used by the Data Warehouse uniquely identifies the building in which a student is enrolled. It is typically assigned by the local student management system. Reports the location code for the building where the incident occurred. When the incident happened on grounds outside the building, the location code for the building where the student is enrolled reports. Alphanumeric	Behavior Management > Incident Detail Information > Location School Information > Location Code	
6	Restraint Event ID	The unique ID of each reported event. Reports the Response ID. Alphanumeric	Behavior Management > Events and Participants > Response ID	
7	Restraint Event Date	The day the event occurred. Reports the Response Date. Date, YYYY-MM-DD Behavior Manage Event and Partici Response Event in Date		
8	Reporting Date	Reports as June 30 of the reported school year. Date, YYYY-06-30 where YYYY is the reported school year	Calendar selector on extract editor	
9	Restraint Type	The state code assigned to the restraint type. See the <u>Codes and Descriptions</u> section below for Intervention Restrant definitions. Alphanumeric	Response Types > Type	
10	Primary Disability Code	Reports as blank. N/A		
11	Student Injured Indicator	ports as blank. N/A		

#	Data Element Label	Description	Location	
12	Staff Injured Indicator	Reports as blank.	N/A	
13	Restraint Event Timespan Code	The total amount of time in minutes the restraint was in place. When the Response Type is Physical Restraint, the duration in minutes that the physical restraint took place reports. Otherwise, the corresponding Event Timespan code reports. Reports as: • 01 for minutes calculated greater than zero but less than or equal to 5 minutes. • 02 for minutes calculated greater than or equal to 6 minutes but less than or equal to 10 minutes. • 03 for minutes calculated greater than or equal to 30 minutes. • 04 for minutes calculates greater than 21 minutes. Alphanumeric, 2 digits		
14	Substantiated Event			

#	Data Element Label	Description Location	
15	Response Reason Code		
16	Staff Training	The type of training the staff person involved in the event received. Reports the description associated with the Staff Training code selected on the Credentials tool. Credentials > C Type: Other > S Training: RT Res Training	
17	Incident A description of the event. Behavior Managem		Behavior Management > Incident Detail Information > Details

Codes and Descriptions

<u>Intervention Restraint Response Type</u> | <u>Intervention Reason</u>

Intervention Restraint Response Type

Description Definition	Code Description
------------------------	------------------

Code	Description	Definition
Adversive	Aversive Intervention	An intervention that is intended to induce pain or discomfort for the purpose of reducing or eliminating student behavior, including such interventions as: • contingent application of noxious, painful, intrusive stimuli or activities; strangling, shoving, deep muscle squeezes or other similar stimuli; • any form of noxious, painful or intrusive spray, inhalant or tastes; • contingent food programs that include the denial or delay of the provision of meals or intentionally altering staple food or drink to make it distasteful; • movement limitation used as a punishment, including but not limited to helmets and mechanical restraints; or • other stimuli or actions similar to the interventions described in this paragraph. The term does not include such interventions as voice control limited to loud, firm commands; time-limited ignoring of a specific behavior; token fines as part of a token economy system; brief physical prompts to interrupt or prevent a specific behavior; interventions medically necessary for the treatment or protection of the student; or other similar interventions.
Corporal	Corporal Punishment	Any act of physical force upon a student for the purpose of punishing that student. This term does not include the use of physical restraints (as defined below) used to protect the student, another student, teacher, or any other person from physical injury when alternative procedures and methods not involving the use physical restraint cannot reasonably be employed to achieve these purposes.

Code	Description	Definition
Mechanical	Mechanical Restraint	The use of any device or equipment to restrict a student's freedom of movement. Mechanical restraint does not include devices implemented by trained school personnel or utilized by a student that have been prescribed by an appropriate medical or related services professional and are used for the specific and approved purposes for which such devices were designed, such as: • adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports; • vehicle safety restraints when used as intended during the transport of a student in a moving vehicle; • restraints for medical immobilization; or • orthopedically prescribed devices that permit a student to participate in activities without risk of harm.
Physical	Physical Restraint	A personal restriction that immobilizes or reduces the ability of a student to move their arms, legs, body, or head freely. Physical restraint does not include a physical escort or brief physical contact and/or redirection to promote student safety, calm or comfort a student, prompt or guide a student when teaching a skill or assisting a student in completing a task, or for other similar purposes.
Prone	Prone Restraint	A physical or mechanical restraint while the student is in the face-down position.
Seclusion	Seclusion	The involuntary confinement of a student alone in a room or space where they are physically prevented from leaving or that they may perceive that they cannot leave at will. Seclusion does not include timeout as defined below.

Code	Description	Definition
Timeout BIP	Use of Timeout in accordance with BIP	Timeout means a behavior management technique that involves the monitored separation of a student in a non-locked setting and is implemented for the purpose of deescalating, regaining control, and preparing the student to meet expectations to return to their education program. The term timeout shall not include: • a student-initiated or student-requested break to utilize coping skills, sensory input, or self-regulation strategies; • use of a room or space containing coping tools or activities to assist a student to calm and self-regulate, or the use of such intervention strategies consistent with a student with a disability's behavioral intervention plan as defined in section 200.1(mmm) of this Title; or • a teacher removal, in-school suspension, or any other appropriate disciplinary action. Report when the action taken was in accordance with the student's Behavioral Intervention Plan (BIP).
Timeout No BIP	Use of Timeout not in accordance with BIP	Timeout means a behavior management technique that involves the monitored separation of a student in a non-locked setting and is implemented for the purpose of deescalating, regaining control, and preparing the student to meet expectations to return to their education program. The term timeout shall not include: • a student-initiated or student-requested break to utilize coping skills, sensory input, or self-regulation strategies; • use of a room or space containing coping tools or activities to assist a student to calm and self-regulate, or the use of such intervention strategies consistent with a student with a disability's behavioral intervention plan as defined in section 200.1(mmm) of this Title; or • a teacher removal, in-school suspension, or any other appropriate disciplinary action. Report when the action taken was not in accordance with the student's Behavioral Intervention Plan (BIP).

Intervention Reason

Code	Description	Definition
Self	Safety Concern Self	Report this code when there is immediate concern for the safety of the student.

Code	Description	Definition
Students	Safety Concern Students	Report this code when there is immediate concern for the safety of other students.
Staff	Safety Concern Staff	Report this code when there is immediate concern for the safety of the staff.
Others	Safety Concern Others	Report this code when there is immediate concern for the safety of other individuals that are not students or staff.
Non- authorized	Non-authorized	Report this code when a response intervention was applied not in accordance with regulations.
