Release Pack Campus.2447 - November 2024

Last Modified on 12/29/2025 3:18 pm CST

Release notes provide the applicable personnel the ability to review enhancements, modifications, and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

The Release Information (https://kb.infinitecampus.com/help/release-information) article lists the approximate release date of all Campus releases. See the Rx Pack - Campus.2447 (https://kb.infinitecampus.com/help/rx-pack-campus2447) article for a list of Rx releases to the Campus.2447 release pack. Questions or concerns regarding an update should be directed to Campus Support. Activity Refund Payment Fix (SIS-182822)

When a student payment for an activity was returned, the Activity Roster (https://kb.infinitecampus.com/help/activity-roster-archived) Payment side panel would in some instances not load and the page could not be interacted with. This has been corrected.

Path: Student Information > Activity Registration > Activity Monitor

Activity Registration Maintenance (SIS-182947)

The following updates have been made to the Activity Registration (https://kb.infinitecampus.com/help/activity-registration-overview) tool:

- Activity Roll Forward allowed activity creation with multiple school preapproval configurations. This has been corrected.
- Override comments could be saved after the Override is unchecked in the Roster. This has been corrected.
- An error would occur in the Quick Form Fill side panel when an optional form with ambiguous data was chosen and ""Cancel"" was selected. This has been corrected.
- Students with forms transferred to a different activity were not properly deleted. This has been corrected.

Assessment

Publish Test Updates (SIS-180481)

Tests published (https://kb.infinitecampus.com/help/publish-tests-assessment-center) from the State Edition to the District Edition are not editable in the District Edition except for the following fields (https://kb.infinitecampus.com/help/assessment-center-test-detail):

- Subject
- Display in Portal
- Display in Transcript
- PESC mapping
- Mark as Restricted
- User Group Access

Attempts to change Test Score fields or Result/Proficiency statuses trigger validation messages indicating the changes are not allowed because the test has been published.

Score Import Errors Impacting CPU (SIS-182231)

Assessment (https://kb.infinitecampus.com/help/assessment-score-data-import) source files with blank rows caused errors and negatively impacted CPU utilization, especially when dealing with large quantities of rows. This issue has been resolved. Assessment source files containing blank rows no longer generate errors, are included in the file row count and are ignored in the test and import steps.

Printing Student Assessment Report Generates Error (SIS-183544)

Following changes released in Campus.2443, attempts to generate the Student Test Scores Detail (https://kb.infinitecampus.com/help/assessment-student#print-assessment-results) report resulted in an "HTTP Status 400 - Bad Request" error. This issue has been resolved, and users can generate the report in PDF and DOCX formats without an error message.

Insights Suspension Update (SIS-183177)

The Insights > Behavior > Suspensions by Student and Insights > Behavior > Suspensions by Event Type reports would, if no suspensions were present, allow for detention data to be included in the report. This has been corrected.

Path: Insights > Behavior > Suspensions by Student, Insights > Behavior > Suspension by Event Type

Campus Instruction

All Present Attendance Notification (SIS-181799)

A new Instruction Setting has been added to "Show All Present Confirmation." If this setting is enabled, a confirmation popup displays if all students are present when the user saves attendance. This setting is enabled by default for users in Texas.

Path: Instruction > click user icon > Instruction Settings > Show All Present Confirmation

Posting Grades - Duplate Grades (SIS-182868)

Previously, the Grading by [Task (https://kb.infinitecampus.com/help/grading-by-task-section)](https://kb.infinitecampus.com/help/grading-by-task-section)/[Student (https://kb.infinitecampus.com/help/grading-by-student-section)](https://kb.infinitecampus.com/help/grading-by-student-section) and [Post Grade (https://kb.infinitecampus.com/help/post-grades-by-task-or-student)](https://kb.infinitecampus.com/help/post-grades-by-task-or-student)s tools displayed duplicate grades if duplicate Grading Tasks or Standards were aligned to the course. This has been corrected.

Path: Instruction > Grades > Post Grades

Assignments (SIS-183006)

Updates have been made to improve the security of assignment data.

Path: Instruction > Curriculum > Curriculum List

Duplicate Assignments - Other Sections/Schedules (SIS-183174)

Previously, when an assignment included in multiple sections/schedules was duplicated (https://kb.infinitecampus.com/help/duplicate-copy-an-assignment), the new assignment was only included in the original section and not the others when it was saved. This has been corrected.

Path: Instruction > Curriculum > Curriculum List > open an assignment > Edit > Duplicate

Campus Learning

Using a Scoring Rubric (SIS-177067)

As a result of a recent change, if a teacher using a scoring rubric (https://kb.infinitecampus.com/help/evaluate-student-work-using-scoring-rubrics) to evaluate work clicked 'Next' to move to the next student, scoring rubric selections were lost. This has been corrected.

Path: Instruction > Grades > Grade Book > expand an assignment > Evaluate Rubric

Google Drive Initialization (SIS-183132)

An issue occurred with Google Drive (https://kb.infinitecampus.com/help/google-drive) certification that caused a district to have trouble accessing their site. This has been corrected.

Path: No specific path

Quiz Scores (SIS-183608)

Previously, if a quiz (https://kb.infinitecampus.com/help/score-quizzes) was scored using Rubrics or Assignment Marks and then the assignment was changed, existing scores were removed from the Grade Book. This has been corrected.

Path: Instruction > Grades > Grade Book

Campus Parent/Student

[Parent/Student Portal Accessibility Updates](#) (SIS-181927)

The Campus Parent/Student Portal has received several accessibility updates.

Cross-Site Enrollment

Visit [Is Cross-Site Enrollment Available in My State?](https://kb.infinitecampus.com/help/is-cross-site-enrollment-available-in-my-state) article to see if Cross-Site Enrollment is available for your state.

[Cross-Site Enrollment Updates](#) (SIS-179751) **[Enhancement]**

The following updates have been made to [Cross-Site Enrollment](https://kb.infinitecampus.com/help/cross-site-enrollment-overview) tools.

NEW Interdistrict Data Sync

A new [Interdistrict Cross-Site Data Sync Log](https://kb.infinitecampus.com/help/cross-site-enrollment-interdistrict-data-sync-log) tool is available for districts participating in interdistrict enrollment. This log lists any changes included in the overnight data sync job. Users can review the changes made to ensure the changed data is correct.

Cross-Site Configuration

When a course is enabled for [Cross-Site](https://kb.infinitecampus.com/help/cross-site-configuration), use the Add Section link on the Course Sections tool to add more Cross-Site Sections. The Cross-Site Enrollment checkbox will already be selected, but the Cross-Site Max Students and Cross-Site Instructional Setting fields will need to be populated.

When the participation setting on [District Information](https://kb.infinitecampus.com/help/district-information) is changed from Intradistrict to Interdistrict or from Intradistrict & Interdistrict, the existing mapped courses and sections are removed.

Cross-Site Enrollment Setup

When viewing the list of courses in the [Home School](https://kb.infinitecampus.com/help/cross-site-enrollment-setup) view, Courses and Sections now display in numeric ascending order.

When viewing the list of courses in the Serving School view, the district name, school name, and calendar names for each school marked for Cross-Site Enrollment display in alphabetic order. The courses and sections are listed in numeric ascending order within each calendar.

The Max Students and the Cross-Site Max Students fields now allow up to three digits.

The list of sections for a Cross-Site Course includes only active sections. Sections that have an End Date in the past are not included.

When the Cross-Site Enrollment Participation field is set to Interdistrict, a Filter by District filter field displays on the Cross-Site Enrollment Setup tool when viewing the Serving School.

A new Pending Roster process has been added to the nightly resync job that removes all pending rosters from the queue. Users at the Home School receive a message and can re-enter the roster changes and try again.

An email is sent to users listed in the Notifications Settings side panel for interdistrict sites when updates are made to sections and/or rosters. It is only sent when the following occurs:

- Roster Start Date Updated
- Roster End Date Updated
- Roster Deleted
- Roster Created
- Invalidated Section
- Updated Section Data

School Connections

The School Connections (https://kb.infinitecampus.com/help/school-connections) tool is only available when the state is enabled to use Cross-Site Enrollment.

Cross-Site Course Master Batch Enable

The Cross-Site Course Master Batch Enable (https://kb.infinitecampus.com/help/cross-site-course-master-batch-enable) tool is only available when the state is enabled to use Cross-Site Enrollment.

Path: Scheduling & Courses > Cross-Site Enrollment

Cross-Site Enrollment - Removal from Serving School AFTER Home School Enrollment is Deleted (SIS-182141)

When a primary enrollment at the home school is deleted before dropping the course at the serving school, the student could not be removed from the Cross-Site Enrollment course. This has been corrected. Deleting the enrollment at the home school also deletes the partial enrollment and ends the roster record at the Serving School. To delete the roster record at the Serving School, use the Roster Update side panel in the Walk-In Scheduler.

Path: Scheduling & Courses > Cross-Site Enrollment

Cross-Site Enrollment Courses Displaying Multiple Times on Student Transcript (SIS-182987)

Cross-Site Enrollment Courses that were in-progress were showing twice on the student's printed transcript. This has been corrected.

Path: Student Information > General > Transcript

Cross-Site Enrollment - Restoring Schedules with Cross-Site Enrollments (SIS-183330)

The Restore Rosters confirmation message now includes a statement about needing to manually restore a Cross-Site Enrollment course.

When a student's current enrollment record ends (student leaves school then returns, grade level changes, etc.) AND the student has a Cross-Site Enrollment, the process for restoring the schedule only applies to the Home School. The Cross-Site Enrollment Course at the Serving School must be manually added to the schedule.

Special Ed State Reporting Flags Functionality Added (SIS-182321) **[Enhancement]**

In a previous release (October 2024, Campus.2443), the Special Ed Flags sub-right was modified to obey the standard RWAD rules, and Flag rights no longer override the sub-right permissions. This allows users to decide more accurately who can assign Special Education Flags to students. See the Student Information Tool Rights article for additional tool rights information.

This enhancement allows users to view and assign Special Education Flags on the Special Education State Reporting tool. Now users can enter state reporting data and assign a Special Education Flag to a student with one tool. This includes managing Special Education Flags assigned to the student via the Student Flag, Batch Program Assignment Wizard, or Task Scheduler tools.

As part of this enhancement, the student's Case Manager automatically pulls into the Flag for the student and displays it in the header when applicable.

North Carolina - Syncing Test Accommodations (SIS-182848)

Test Accommodations (https://kb.infinitecampus.com/help/test-accommodations-test-accommodations) were not syncing to State Edition. This has been corrected. The following updates have been made to address this issue:

- Test Accommodation fields that allow multiple selections have been moved to a new database table (TestAccommodationValue).
- The Test Accommodations field on the student's Test Accommodations record has been moved to the new table.
- Test Accommodations associated with tests created at the district do not sync to State Edition. In order to sync, Accommodations must be associated with a test that has been pushed down from State Edition.

Path: Student Information > General > Test Accommodations; Student Information > General > Student Administration > Assessment Center

North Carolina - Student Transcript Course Name Field (SIS-183025)

In a previous release, the State Code and State Code Name were made read-only on a saved Transcript Course record, and validation was added to the local Course Number field to require that it be a number in the Course Catalog. This allowed users to still edit the Course Name field as long as it was associated with a State Code/State Course Name.

However, editing the Course Name field on a saved Transcript record causes the field to be empty. This has been corrected.

- Users with the appropriate tool rights should be allowed to manually input a course number.
- When the user selects a course number from the dropdown or pre-defined list, the corresponding state code and state course name automatically populate.
- When the user inputs or selects a course number that does not exist in the system, the state code or state course name does not auto-populate.
- The validation confirms the state code and state course name fields are populated before the course entry can be saved.

Users can still edit a local course name/number.

Path: Reporting > NC State Reporting > NC PMR

North Carolina - NCUID Updates (SIS-183604) **[Enhancement]**

The following updates have been made to the NC UID process:

State Edition

- Assigning an NC Student ID in State Edition has been removed from the Student Locator and Demographics tools.
- The State ID field in State Edition remains uneditable.

Student Locator

- The Student NC DPI Lookup message populates student information the same way it populates student information on the Demographics tools.
- When a Student State ID already exists for the student, the Assign NC Student ID is disabled.
- When the student ID is not assigned at the time of enrollment, the student/enrollment syncs to the state without NC Student ID. When a user assigns the student ID on the Demographics record but does not click save, the State ID does not sync to the state. Follow this workflow:
    - Assign/Register an ID to a Student who has enrollment, but does not have a UID assigned to them as of yet.
    - Click the Assign NC UID button within Demographics to Assign/Register a UID to the Student.
    - The UID will sync to the state.

North Carolina - NC CTE Extract Potential Concentrators vs. Participant (SIS-183696)

The NC CTE Extract was reporting a student as a Potential Concentrator when the student was marked as a Participant. This has been corrected.

Path: Reporting > NC Reporting > NC CTE Extract

North Carolina - NCUID Updates (SIS-183702) **[Enhancement]**

Additional updates have been made to the NCUID Process:

- When a user requests or assigns a Student State ID on the Student Locator, an enrollment can be created without a Student ID.
- The UID field on the Enrollment screen in the Student Locator is required to save. A message displays if that state ID is not entered.
- When the NCDPI system is not accessible by the user, enrollments cannot be saved for new students. They can also not make demographic changes. A down system message displays when this is the case.

Path: Student Information > General > Student Locator
