

Enrollments Tool Rights

Last Modified on 12/02/2024 9:17 am CST

DRAFT SAMPLE FOR CONTECH-133 - copied tables and enrollment tool rights recommendations from Tool Rights (Student Information) article

[General Tool Rights](#) | [General Enrollment Information](#) | [Future Enrollment](#) | [State Reporting](#) | [Special Education](#) | [Enrollment History](#) | [Enrollment Tool Right Recommendation](#)

The Enrollments tool is used to enter and manage student enrollments. The Enrollments tool displays all occurrences of a student's enrollment in the district and allows the recording of other enrollment records as Enrollment History. Examples of staff who might need access to this tool include Registrars, Front Office Staff, Administrators, and Counselors.

General Tool Rights

- Read** - User can view enrollment information, generate the Print Enrollment History and Notice of Change of Enrollment reports, and view uploaded Documents
- Write** - User can enter or modify existing enrollment information
- Add** - User can add new enrollments and enrollment history information
- Delete** - User has full access to all options available in the Enrollment tool

Enrollments All Read Write Add Delete

Top-level Enrollments Tool Rights

Additional rights can be granted or denied in each section of the Enrollment tool as detailed below. See Enrollment Tool Right Recommendation at the end of this article for more information.

General Enrollment Information

The General Enrollment Information editor displays when an Enrollment is selected from the Enrollment Editor, or when a New enrollment is being added. The School of Accountability field is used in Civil Rights Data Collection reporting. Not all users need rights to this field.

State Reporting

State Reporting fields vary by state. Not all employees need access to State Reporting information. Some options may be hidden in states that do not use them. Field names in the Editor may differ from the tool right name. For example, Meal Status may display as Economic Indicator in the State Reporting Fields editor.

Enrollment History Documents

Enrollment History Report

The Enrollment History report lists all enrollments a student has had at the district.

Grade Level Local Grade Level Code State Grade Level Code

Generate Report

R	W	A	D
Allows the user to view the student's enrollment history information.	Allows the user to edit existing enrollment information and enrollment history information.	Allows the user to add enrollments and enrollment history information.	Allows the user full access to all options available on the enrollment tab.

Enrollment Tool Right Recommendation

Due to the complex nature of the Enrollments access rights, when feasible, access rights to the Enrollments editors should be set in the same manner as the editor sub-rights.

If RWAD is assigned to the State Reporting editor, sub-rights such as Ward of State, Meal Status, Migrant, etc. should also be RWAD.

Modifying specific sub-rights to control field-level access is possible, but may warrant additional user testing to ensure that setup complies with district, state and federal privacy standards.

Consider the following scenarios:

Singular Access to the Enrollment Editors

If a user can have the same level of access to all editors/sub-rights, assign the user R or RW rights to that editor of the entire Enrollments tab, as applicable.

A and D rights only affect the Enrollments tab and the Enrollment History rights. Choosing A or D on any other Enrollment editors/sub-rights has no affect.

With full access rights, the user is allowed to see and/or edit all Enrollment editors and fields. The user is also able to add and delete current and historical enrollments.

Enrollments Rights

Varying Access to the Enrollments Editors and Sub-Rights

If a user needs varying levels of access to the Enrollments editors and sub-rights, the highest level of access rights assigned to any of those areas must also be assigned to the direct parent editor and to the Enrollments tab. Sub-rights cannot allow more access than the rights of the parent editor.

When rights are assigned to a parent area (editor or tab), the system always marks the child rights to reflect parent rights by default. This means that all areas that should be restricted from the user MUST BE manually removed.
