

Census Reports Tool Rights

Last Modified on 12/14/2025 8:45 pm CST

Since generating a report doesn't add or change existing data, **only Read rights are required**. Write/Add/Delete rights, if granted, have no impact.

See the individual articles in [Census Reports](#) to learn more about these reports and how to run them.

Census Reports Tool Rights

Some information may not display on a report if the person generating the report doesn't have rights to view it. Users require Calendar Rights that determine the years and schools for which they can generate reports.

Address Change Report

This report helps staff such as Front Office, Secretaries, Clerks or Administrators find students who have had an address change within a date range (or on/after an entered Start Date).

Census Reports - Address Change Report

Badge Printing

You may grant staff rights to print Staff, Student, or both Staff and Student Badges since sub-rights for Staff and Student badges exist for this report. Badges are typically used with systems such as Attendance Scanning Kiosks, but they can also be used in other situations where badges are needed.

The templates created using the [Badge Designer](#) determine what elements are included on badges. Staff and Student subrights determine whether a person can access the templates aligned to those badge types.

To use the Photo and Badge Printing tool, users must have the Read tool right assigned for both Badge Printing and Photo and Badge Printing.

Census Reports - Census By Address

Census by Birth Date Report

The Census by Birth Date Report can be used to find students whose birthdates fall within a

Page 3

specified range or within a selected month. Front Office Staff, for example, might use this report to see which students have birthdays within a given month or to verify birthdate information for a group of students.

Census by Birth Date Report

Census By Birth Date

Find all students entered in Campus Census with a birth date in the range specified and in selected school or calendar. When using the date option, start date indicates the date to start the search from, all birth dates after this date will be reported up to the end date. If the end date is not specified the date is assumed to be today.

When a month is selected, start and end dates will be ignored, and only students with birthdays in the selected month who have active enrollments on effective date will be reported.

Primary household data will print for each student, along with data for any other households in which the student has a guardian (unless the Show Primary Household Information Only checkbox is selected).

Census Reports - Census by Birth Date

Census by School Boundary Report

The Census by School Boundary report can be used by Registrars, Front Office Staff or other staff to check active household memberships, household locations, and enrollments within a school boundary for each student.

Census by School Boundary Report

Census By School Boundary

This report will list all addresses that fall within the school boundary for each student. Results will be grouped by Location Code and County and may be sorted by Address or Student within those groups. Effective Date is required and will be used to check active household membership, household location, enrollment, and school boundary.

Census Reports - Census By School Boundary

Census Verification Report

This report has many options, allowing staff to choose information to be verified for specific purposes, such as verifying household information that was entered in census or verifying parking information. Each student gets their own report.

Census Verification Report

Census Verification Report

This report will batch print student census verification data. Page breaks are inserted automatically for each student and household. This is a very complex report and it is recommended that the number of students run per batch is limited. Including all options in the report could make the report longer than one page per household.

Which students would you like to include in the report?

Census Reports - Census Verification Report

Impact Aid Report

If your school district has students who live on Federal installations or Native American reservations or have guardians in government or military service, your school may need to enter, track, and report on that kind of information.

Impact Aid Report

Federal Impact Aid Report

This tool will build a report to find students who live on Federal installations (military bases, low-rent housing properties) or Native American reservations, or whose guardians are in government or military service. In order for a student to be listed as having an IEP, the student must have an active, looked IEP on the Effective Date entered.

Mailing Labels

Mailing labels are primarily generated by Front Office Staff.

Mailing Labels ☆

Instructions

Mailing Label Generation

This report generates mailing labels for the Students, Guardians, Teachers, and Staff for those individuals who meet the entered criteria.

- Students- Prints one label with student's name and one guardian name per household.
- Guardians- Prints one label with each person who is marked as a guardian per household.
- Teachers- Prints one label for each teacher who is in a household.
- Staff- Prints one label for each staff member who is in a household.

Only addresses marked as mailing addresses are included.
