

Rx Pack - Campus.2451

Last Modified on 12/16/2024 2:14 pm CST

[Rx Pack Campus.2451.3](#)

The following corrections are included in Rx Packs for December 2024. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2451 pack unless otherwise noted. Rx Packs may occasionally skip a release number for Rx builds that were not made generally available.

Below is a list of all Rx Packs for Campus.2451 and the date of availability:

- Rx Pack Campus.2451.3 - Monday, December 16, 2024 - No release for Campus.2451.1 and .2.

See the [Release Pack Campus.2451 - December 2024](#) article for a full list of cases included in the Campus.2451 release.

[Arizona - Student School Food Service Program Associations Updates \(SIS-183410\)](#)

The Student School Food Service Program Associations Resource has been updated for the following:

- A record reports when the FRAM record is active within enrollment start and end dates. When the FRAM record is NOT within the enrollment dates, it is excluded.
- When a student leaves the district and returns, multiple records report based on enrollment start/end dates.
 - Additional records do not post when the student has an End Status = ZZZ and a new enrollment with Start Status = ZZZ. These enrollments need to be combined and treated as a single enrollment in the ODS.
