

School Information (Nevada)

Last Modified on 01/09/2026 9:42 am CST

Tool Search: School Information

The School Information tool documents all of the district's schools. The information below describes the School Information tool for **Nevada** users.

When first accessing the School information, a list of all schools in the district appears. Select the appropriate school name from the School Editor list to view information about a school. A School Detail editor displays. Click the plus sign next to the school name to view historical school information.

Most districts associated with an Infinite Campus State Edition installation are unable to add a new school. Districts that do not have the tool rights to add a new school should contact their State Department of Education.

- To add a new school to a State and appropriate District Editions, submit a ticket to Infinite Campus Support detailing your request. Infinite Campus Support staff will implement the changes in both applications as appropriate.
- To modify the name of a school in the State and appropriate District Editions, submit a ticket to Infinite Campus Support detailing your request. Infinite Campus Support staff will implement the changes in both applications as appropriate.

| National School Lunch Program (NSLP) | Indicates whether the school participates in the National School Lunch Program . This field must be selected for some state reports and the FRAM Verification Final Summary Report . |
| Provision | <p>This field indicates the Provision in which the school is participating. The National School Lunch program includes the following provisions.</p> <ul style="list-style-type: none"> • Provision 1: Reduces application burdens by allowing schools where at least 80% of the children enrolled are eligible for free or reduced-price meals to certify children eligible for free meals for a two-year period. Schools continue to take daily meal counts of the number of meals served to children by type as the basis for calculating reimbursement claims. • Provision 2: Requires that the school serve meals to participating children at no charge but reduces application burdens to once every four years. It also simplifies meal counting and claiming procedures by allowing schools to receive meal reimbursement based on claimed percentages. Additional four-year extensions to Provision 2 are possible when certain conditions are met. • Provision 3: Requires that the school serve meals to participating children at no charge but reduces application burdens, meal counting, and claiming procedures by allowing a school to receive a comparable level of Federal cash and commodity assistance as the school received in the last year in which free and reduced-price eligibility determinations were made, adjusted for enrollment, inflation and operating days if applicable, for a period up to 4 years. Additional 4-year extensions to Provision 3 are possible when certain conditions are met. <div style="background-color: #e1f5fe; padding: 10px; margin: 10px 0;"> <p>For more information on Provisions 1-3, see the United States Department of Agriculture website.</p> </div> <ul style="list-style-type: none"> • CEP: CEP (Community Eligibility Provision) allows schools that predominantly serve low-income children to offer all students free, nutritious school meals through the National School Lunch and School Breakfast Programs. The CEP uses information from other programs, including the Supplemental Nutrition Assistance Program (SNAP) and the Temporary Assistance Program for Needy Families (TANF), instead of traditional paper applications. |

New School History

School data is divided into two areas: School Detail and School History. School History records contain information related to a school that can be tracked historically. By creating a new School History, the new information is tracked as of a specific date while the previous values are preserved. To create a new School History record, select an existing School History and click the New School History button. This will create a new School History record based on the current information, which can be modified as needed and saved.

School Deletion

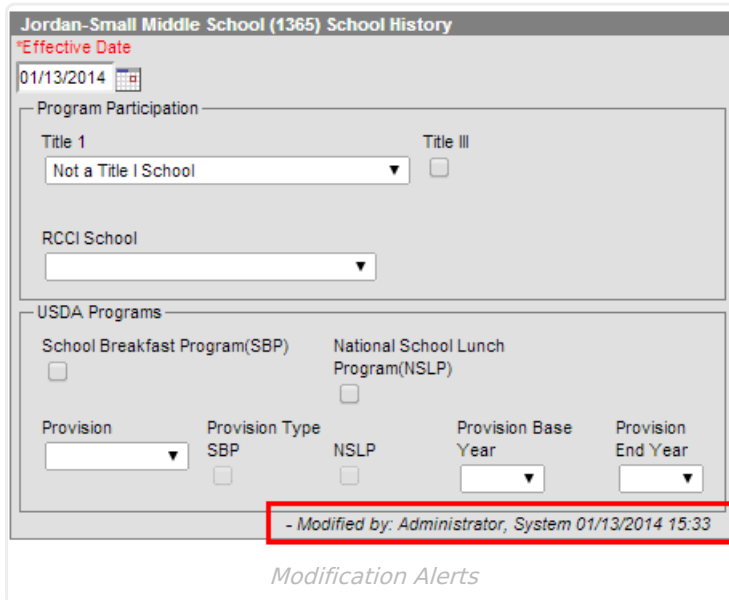

Page 9

Use the Delete School button to permanently delete the school from Campus. A school cannot be deleted if other records (such as calendars and enrollments) are tied to it. Original records cannot be deleted as they are required for schools to ensure that some values date back as far as possible for reporting purposes. An original record can only be deleted when the entire school is deleted.

The tool right to delete a school should be given to a limited number of users.

Modification Alerts

Because the School Information record contains sensitive data related to a school's contact information, a notification is available indicating which user modified the information. When a change is made, the person's username and the change's date are displayed below the Comments field on the School Detail editor and at the bottom of the School History Editor.
