Tool Search: School Information

The School Information tool documents all of the district's schools. The information below describes the School Information tool for **Nevada** users.

When first accessing the School information, a list of all schools in the district appears. Select the appropriate school name from the School Editor list to view information about a school. A School Detail editor displays. Click the Plus sign next to the school name for historical school information.

Most districts associated with an Infinite Campus State Edition installation cannot add a new school. Districts that do not have the tool rights to add a new school should contact their State Department of Education.

- To add a new school to a State and appropriate District Editions, submit a ticket to Infinite Campus Support detailing your request. Infinite Campus Support staff will implement the changes in both applications as appropriate.
- To modify the name of a school in the State and appropriate District Editions, submit a ticket to Infinite Campus Support detailing your request. Infinite Campus Support staff will implement the changes in both applications as appropriate.

School data is divided into two areas: School Detail and School History. School History records contain information related to a school that can be tracked historically. By creating a new School History, the new information is tracked as of a specific date while the previous values are preserved. To create a new School History record, select an existing School History and click the New School History button. This will create a new School History record based on the current information, which can be modified as needed and saved.

## School Deletion

Use the Delete School button to permanently delete the school from Campus. A school cannot be deleted when other records (calendars, enrollments, etc.) are tied to it. Original records cannot be deleted as they are required for schools to ensure some values date back as far as possible for reporting purposes. An original record can only be deleted when the entire school is deleted.

Tool rights to delete a school should be given to a limited number of users.

## Modification Alerts

Because the School Information record contains sensitive data related to a school's contact information, a notification is available that indicates which user modified the information. When a change is made, the person's username and the change's date are displayed below the Comments field on the School Detail editor and at the bottom of the School History Editor.
