Reports Updated to Consider Cross-Site Enrollment (SIS-175518) **[Enhancement]**
Reports impacted by attendance, grade, or roster data in the following states were updated to include an 'Exclude Cross-Site Data' checkbox on the extract editors:

- Iowa (https://kb.infinitecampus.com/help/iowa-state-reporting)
- Utah (https://kb.infinitecampus.com/help/utah-state-reporting)
- Wyoming (https://kb.infinitecampus.com/help/wyoming-state-reporting)

The reports exclude records when the checkbox is marked (default) on the extract editor, and a student's course or section is designated as cross-site.

These updates support the release of Cross-Site Enrollment functionality in Iowa. The 'Exclude Cross-Site Data' checkbox only displays when the district enables the cross-site tool.

Forms

Forms eSignature Fields Added to Ad hoc (SIS-141619) **[Enhancement]**

A new Form Status folder was added to the Ad hoc Filter Designer. The fields added to this folder allow users to query Custom Form eSignature information. See the Forms (https://kb.infinitecampus.com/help/forms) article for additional information.

Forms Review Participants Update (SIS-156498) **[Enhancement]**

When users click the Review Participants button on the Forms tool, a side panel displays. Previously, parents/guardians with the correct relationship status to the student but no Campus Parent account did not display in the side panel. Staff members seeking to send a Custom Form for eSignature may not know a parent/guardian exists.

With this update, all parents/guardians display in the Review Participants side panel, indicating if the parent/guardian does not have an account. This also informs users when students don't have a Campus Student account when sending a Custom Form to a student. This update only applies to the Forms tool. Updates to the Activity Registration Review Participants side panel are forthcoming. See the Forms (https://kb.infinitecampus.com/help/forms) article for additional information.

Health Condition List Enhancement (SIS-184709) **[Enhancement]**

The Health Condition List (https://kb.infinitecampus.com/help/condition-list) tool now has a new read-only field, Origin. This field identifies the list from which this condition was created: ICD-9, ICD-10, or district-

For those states whose special education fields exist on the Enrollments and Special Ed Reporting tools, the Advanced Search for these fields was not working. This logic was fixed for Colorado and Wisconsin. See the following articles for additional information:

- Colorado Setting (https://kb.infinitecampus.com/help/setting-colorado)

Special Ed Plan eSignature Enhancements (SIS-184444) **[Enhancement]**

When sending a plan for eSignature on the Special Ed Documents tool, a dialog displays, allowing users to select which parent or guardian receives the plan on Campus Parent. This update enhances that dialog, informing users if any of the student's parents/guardians do not have an active Campus Parent account. Plans cannot be sent to a parent or guardian unless they have an active Campus Parent account. See the Special Ed eSignature Process (https://kb.infinitecampus.com/help/special-ed-esignature-process) article for additional information.

The Student School Food Service Program Associations Resource (https://kb.infinitecampus.com/help/arizona-ed-fi-1) has been updated for the following:

    - Additional records do not post when the student has an End Status = ZZZ and a new enrollment with Start Status = ZZZ. These enrollments need to be combined and treated as a single enrollment in the ODS.

Wyoming - Percent Hathaway Course Requirement (SIS-184509) **[Enhancement]**

A Percent Hathaway Course Requirement field has been added to the Course Information editor. The numeric value entered in this field reports on the WDE950 StudentCourses field and indicates the percentage the course contributes to the Hathaway scholarship requirement. A value needs to be entered in the Hathaway field to add a percent value.

A Percent Hathaway Override field has also been added to the Section Student Detail tool. This acts as an override value for the field on the Course Information editor.
