

SIF Unity Objects (Core)

Last Modified on 12/16/2025 1:04 pm CST

This article provides information about Core SIF (Unity), including object information and related tooling.

SIF is a standard for data interchange that allows two separate information systems to communicate with each other. SIF sets a standard messaging language and format that defines data objects commonly shared across student information systems and applications.

As long as both applications conform to the same SIF data interchange standards (such as those set by SIFA), communication between two systems designed by entirely separate vendors is possible.

SIF Unity tools are only available for SIF v3.6 or higher.

SIF Object Information

The table below provides PDFs detailing each object used in Core SIF (Unity).

Object	Link to Document	Last Updated in Release Pack
Attendance Code Info	Attendance Code Info 	.2519
Calendar Date	Calendar Date 	.2519
Calendar Summary	Calendar Summary 	.2519
Discipline Incident	Discipline Incident 	.2519
