

Course Planner Tool Rights

Last Modified on 12/14/2025 8:45 pm CST

The **Course Planner** is used by Schedulers to set parameters that determine how courses are built and placed on the Scheduling Board, as well as specifying who can teach the course and the room or rooms in which a course section can meet.

See the [Course Planner](#) article to learn more about this tool.

Course Planner

Users with access to the [Scheduling Center](#) and **Course Planner** are able to navigate to the Course Planner tool from the Scheduling Center. They can toggle back and forth between the **Scheduling Board** and the **Course Planner**, **Staff Planner**, and **Requests & Rosters** tools when accessing the Scheduling Board first.
