

Grade Level Setup Tool Rights

Last Modified on 11/26/2025 12:51 pm CST

The **Grade Level Setup** tool is used to define grade levels to which students at a school are assigned and assign parameters or exclusions as appropriate. A limited number of staff may need access to this tool.

To learn how to use this tool, see the [Grade Level Setup](#) article.

Scheduling & Courses > Calendar Setup > Grade Level Setup

Grade Levels must be sequenced across the entire district. For example, when students are rolled from 8th grade at a middle school to 9th grade at a high school, students roll over to the next grade level in **sequence** (e.g. grade level 08/sequence 09 would roll to grade level 09/sequence 10).

Available Tool Rights

R	W	A	D
View grade level detail information.	Make and save changes to existing grade level detail records.	Add a new grade level detail record.	Delete a grade level detail record.
