Campus Instruction

Saving Scores in Multi-Score (SIS-183891)

Previously, when scoring assignments in the Multi-Score (https://kb.infinitecampus.com/help/scoring-assignments-in-the-grade-book) view, if a user scrolled far down the page after entering a score, that score was sometimes not saved. This has been corrected.

Path: Instruction > Curriculum > Curriculum List > select an assignment > Score

Rapid Scoring (SIS-185103)

Previously, when a user turned Rapid Scoring on or off in the Multi-Score (https://kb.infinitecampus.com/help/scoring-assignments-in-the-grade-book) screen, that setting was saved by the system and remembered the next time they opened the tool. Logic to save this preference was broken in a previous release and has now been restored.

Path: Instruction > Curriculum > Curriculum List > click an Assignment > Score > Rapid Scoring

Campus Learning

Reassigning a Submission Assignment (SIS-185337)

Previously, teachers were unable to reassign a submission (https://kb.infinitecampus.com/help/submissions-assignments-resources) assignment to a student as a result of a recent change. This has been corrected.

Path: Instruction > Curriculum > Curriculum > select an assignment > Score > Reassign to Student

Campus Student & Parent

Campus Student - Hall Pass in Shortcuts (SIS-183401) **[Enhancement]**

The Hall Pass tool has been added to the Shortcuts area of the Home screen in Campus Student (https://kb.infinitecampus.com/help/campus-student-portal).

Portal Gender Identity (SIS-184819) **[Enhancement]**

A new Portal Gender Identity preference tool has been added to the Portal Preferences (https://kb.infinitecampus.com/help/627474). This tool allows districts to indicate whether the Demographics tool in Campus Student and Campus Parent should Display Gender and Display Pronoun. These settings apply to all schools in the district.

Both options are disabled by default, unless the district has Self Service Options > Activate Demographics > Display Student Demographics enabled.

Note: display of Gender and Pronoun fields also depend on whether the fields are enabled in the Core Attribute/Dictionary. Pronoun options are managed via the Pronoun Setup (https://kb.infinitecampus.com/help/pronoun-setup-pronoun-setup) tool.

Path: System Settings > Portal Preferences > Portal Gender Identity

Path: Student Information > General > Summary

Cross-Site Enrollment

Cross-Site Performance (SIS-183462)

Updates have been made to improve the performance of a common Cross-Site Enrollment query.

Path: No specific path

Cross-Site Enrollments Ending when an Ended Non-Cross-Site Enrollment Modified (SIS-184098)

Making changes to a primary enrollment record that has already ended but is within the same calendar year as an active Cross-Site Enrollment caused the Cross-Site Enrollment (https://kb.infinitecampus.com/help/cross-site-information-for-enrollments) to be ended as well. This has been corrected.

Path: Student Information > General > Enrollments

Cross-Site Enrollment - Cross-Site Course State Code, Name, Number on Mapped Course at Home School and Transcript Records Not Populating (SIS-185114) (SIS-185116)

The State Code and Name on mapped Cross-Site Enrollment courses (https://kb.infinitecampus.com/help/transcript-information-for-cross-site-students) were not populating at the Home School or on Transcript records. This has been corrected.

A script has been created that will populate any missing State Course Number and Name for any transcript record that has been posted.

Custom Forms

View Custom Form Batches Created by Others Update (SIS-172107) **[Enhancement]**

Users with the appropriate tool rights can now view Form Batches created by other users. See the Form Batch Setup (https://kb.infinitecampus.com/help/form-batch) tool for additional information.

Path: Student Information > General Student Administration > Form Batch Setup

Custom Form eSignature Guardian Selection Enhancement (SIS-183607) **[Enhancement]**

Users now can determine the number of parents/guardians required to sign a Custom Form

electronically. This includes No eSignature Required, One Guardian eSignature Required, and All Guardian eSignatures Required options on the Custom Forms Setup tool. This update applies to all custom and core module custom forms. Premium Suite Custom Forms have a different process for determining the number of guardian signatures, and the Custom Module Setup (https://kb.infinitecampus.com/help/custom-module) options only determine if signatures are required or not to complete the form.

When One Guardian eSignature Required is selected, users on the Forms (https://kb.infinitecampus.com/help/forms) tool can select which parent(s)/guardian(s) will receive the Custom Form in the Review Participants side panel. Only one signature is required, but the custom form can be sent to multiple parents/guardians. When assigning Custom Forms to students using the Form Batch Setup (https://kb.infinitecampus.com/help/form-batch) tool, the form is automatically sent to all parents/guardians, but only one guardian signature is required to complete the form.

Path: Student Information > General Student Administration > Custom Forms Setup/Form Batch Setup, Student Information > General > Forms

Forms eSignature Ad hoc Fixes (SIS-185199) **[Enhancement]**

The logic for reporting guardian eSignature statuses in Ad hoc was updated to account for when one guardian signature is required, but the form is sent to two or more guardians. A misspelled field in Ad hoc (signerPersonID) was corrected. See the Forms (https://kb.infinitecampus.com/help/forms) article for additional information.

Path: Student Information > General > Forms

Data Utilities

Data Extract Utility SFTP Key Exchange Manager Updates (SIS-185152) **[Enhancement]**

The following updates were made to improve the Data Extract Utility SFTP Key Exchange Manager (https://kb.infinitecampus.com/help/data-extract-utility-sftp-key-exchange-manager):

- The refresh option in the tool now says Refresh instead of OK.
- When a configuration is deleted, you will now receive a dynamic alert indicating you deleted the configuration.
- The Delete button is now red.

Path: System Settings > Data Utilities > Data Extract Utility SFTP Key Exchange Manager

DIS/SIF

DIS Error Log Update for Roster: Cannot Insert Duplicate Key (SIS-184283)

DIS Errors received when duplicate keys were inserted into the roster table have been corrected. These errors may have occurred when rosters were deleted and re-inserted by external tools, which also resulted in rosterGUID changes.

Path: System Settings > Data Interchange Administration > Error Log

DIS Error Log Special Ed Progress Report Null District ID Fix (SIS-184287)

An issue was fixed when attempting to create a Special Ed Progress Report without a districtID, which caused the Error Log (https://kb.infinitecampus.com/help/error-log) to generate "insert record failure" entries. The system previously didn't assign a districtID when the districtNumber was invalid. Now, the sync checks if the districtID exists and is valid and doesn't attempt to sync when it's not.

Path: System Settings > Data Interchange Administration > Error Log

DIS Error Log Special Ed Progress Report Sync Fix (SIS-184307)

An issue was fixed when a Special Ed Progress Report was associated with a PlanID for a plan that did not exist at the state because the plan was unlocked. Now, Progress Reports only look at locked plans when syncing to the state. This fix will reduce the volume of errors displayed in the DIS Error Log.

Path: System Settings > Data Interchange Administration > Error Log

Ed-Fi

Ed-Fi Data Tool Update (SIS-185128)

The Ed-Fi Data tool (https://kb.infinitecampus.com/help/ed-fi-data-ed-fi-data) has been updated to no longer have a validation that checks for an Enrollment in a school in a school year that an Ed-Fi Connection is set up for.

Path: Student Information > General > Ed-Fi Data

Fees

An error occurred where recurring payments for a fee did not display the recipient on the Payments Reporter (https://kb.infinitecampus.com/help/payments-reporter-doc). This has been corrected.

Path: System Settings > Payments > Payments Reporter

Grading & Standards

Text Updated on eTranscript Batch Editor (SIS-185076) **[Enhancement]**

Path: Grading & Standards > Reports > eTranscript Batch

Health

Health Conditions and Medications Recorded By Update (SIS-178532)

When creating a Health Office Visit using the Medications or Conditions tools, the person who created the record now automatically populates into the Recorded By field on the office visit. Recorded By only populates when the user scheduling the appointment has an active District Assignment with the Health checkbox marked. See the Health Office Calendar (https://kb.infinitecampus.com/help/health-office-calendar) article for additional information.

Path: Student Information > Health > Conditions/Medications/Office Visits, Health Office > Health Office > Health Management > Health Office Calendar

Daily Health Log Tool Rights Fix (SIS-184045)

Previously, users were required to have the Add tool right to Student Information General Scheduling to use the Document Upload functionality on the Daily Health Log (https://kb.infinitecampus.com/help/daily-health-log-tool). With this update, this tool right dependency is no longer required, and users only need Daily Health Log tool rights.

Path: Student Information > Health > Daily Health Log

Health Screening DIS Error Log Verbiage Update (SIS-185084)

The following Health Screening Error Log messages were updated to correct the units of measurement:

- The error, "The height must be between 12 and 99 lbs," was updated to "The height must be between 12 and 99 ins."
- The error, "The weight must be between 15 and 999 ins," was updated to "The weight must be between 15 and 999 lbs."

This has been corrected.
