Manage Blended Learning Groups Tool Rights

Last Modified on 12/23/2025 1:24 pm CST

Staff use **Manage Blended Learning Groups Tool Rights** to backdate the start date of a learning group and redistribute students assigned to learning groups. Blended Learning tools give districts flexibility in offering instruction in person, virtually or in some combination of the two while being able to still take attendance and manage classroom information.

See the Manage Blended Learning Groups article to learn how to use this tool.

Scheduling & Courses > Build Schedules > Manage Blended Learning Groups

These related tools are used to create and manage Blended Learning Groups:

New Blended Learning Groups: Create and assign learning groups to students.

Adjust Blended Learning Groups: Assign students to groups and/or groups to days

Available Tool Rights

R	W	A	D
Access and view current Blended Learning Groups listed in the tool.	N/A	Manage backdating of and/or redistribution of students in Blended Learning Groups.	N/A

Suggested User Groups

If your district uses Blended Learning, you may wish to create one or more separate Blended Learning user groups depending on the responsibilities of the staff members who will be using the tools. Depending on your situation, it may also be appropriate to add rights to these tools to the Schedulers User Group.

See User Groups and Suggested Roles for more information.
