

Lunch Setup Tool Rights

Last Modified on 12/01/2025 9:31 am CST

Schools use **Lunch Setup** to assign students to designated lunch periods.

To learn how to use this tool, see the [Lunch Setup](#) article.

Scheduling & Courses > Build Schedules > Lunch Setup

Related Tool Information:

Lunches are assigned to the [Course Section](#). When lunch minutes are noted on the [Calendar Periods](#), that time is subtracted from instructional time. For this purpose, schools may extend the period immediately before the lunch time or immediately after the lunch time instead of having a separate lunch period.

Available Tool Rights

R	W	A	D
View existing lunch groups created for a school	Edit existing lunch groups	Add new lunch groups	Delete lunch groups
