

Rx Pack - Campus.2507

Last Modified on 02/10/2025 12:57 pm CST

The following corrections are included in Rx Packs for February 2025. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four-week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2513 pack unless otherwise noted. Rx Packs may occasionally skip a release number for Rx builds that were not made generally available.

Below is a list of all Rx Packs for Campus.2507 and the date of availability:

- Rx Pack Campus.2507.3 - Monday, February 10, 2025

See the [Release Pack Campus.2507 - February 2025](#) article for a full list of cases included in the Campus.2507 release.

A script was previously released to address populating the State Code and State Name fields on the Transcript. Following this change, large districts could not update their Campus versions.
